Dear Representative Olson,

I am writing in support of HB 282. I am in my 3rd year of study for my doctorate of Naturopathic Medicine at NCNM in Portland OR. I am from Fairbanks, AK, and would love to return to my home state to practice medicine after graduation. Currently the scope of practice in Alaska does not allow me to utilize my full education in Pharmacology and Minor Surgery. I am concerned that these limitations will not allow me to give my patients the best care. The creation of a Naturopathic Medical Board is key in implementing these changes and making Alaska an attractive choice for Naturopathic Physicians to practice. Thank you for your time and support.

Sincerely,  
Suzette Mailloux
