REPRESENTATIVE Paul Seaton

District 35

Changes between the CSHB389(FSH) v.C and original HB389v.S:

- The Fisheries Committee Substitute includes the Product Quality loan program as eligible under the bill. The original only included engine replacement program, which was an oversight on our part
- The Fisheries Committee Substitute also includes the language: "When the department offers a reduction under this subsection, the department shall provide the reduction to all loan applicants who meet the criterion described in this subsection." Legislative legal suggested this addition to guarantee that the program is offered equally to all applicants when it is offered.
