Chair Senate Special Committee on Energy Senate Committee on World Trade, Technology and Innovations

Co-Chair Senate Resources Committee

Member Senate Judiciary Committee

SENATOR LESIL MCGUIRE

Annual Royalty Due Under the SB 243 for the Proposed Mt. Spur Geothermal Project

The following was prepared based on the numbers provided by ORMAT, Inc. to the Senate Resources Committee.

Assumptions:

- 1. 50 Megawatt Geothermal Project
- 2. 95% Capacity factor
- 3. \$130 per Megawatt/Hour

At the 1.75% rate for the first 10 years:

• 50 MW x 8760 hrs/yr x 95% CF x \$130 MW/hr x 1.75% = \$946,627.50 annually

At the 3.5% rate (effective in perpetuity after the first 10 years):

• 50 MW x 8760 hrs/yr x 95% CF x \$130 MW/hr x 3.5% = \$1,893,255 annually

*It is important to note that if the Mt. Spur project is developed by a private entity as proposed, the corporation would also be subject to Alaska's corporate income tax.

Prepared by: Michael Pawlowski, Aide to Senator McGuire
