Sponsor Statement

HB 294

USE, REGULATION, AND OPERATION OF BOATS

House Bill 294 extends the sunset dates of the Statewide Boating Safety and Education program for six years. In 2009 HB 151 was passed which extended the program for one year, allowing funding to continue to 2010.

This program has been successful as more boaters follow safety rules and boating fatalities have steadily decreased during the tenure of the law while bringing Alaskan law into compliance with federal regulations. Under this program, boating deaths in Alaska have decreased by 20% and the lives of at least 17 Alaskan children have been saved by a Kids Don't Float life jacket.

Furthermore, the Statewide Boating Safety and Education Act has allowed the State of Alaska to consistently receive over one million dollars a year in federal funds. To receive full funding for the federal FY 2011 this sunset must either be extended or repealed during the 2010 legislative session.

Passage of HB 294 will ensure that a successful program will continue to save lives and that the State of Alaska will continue to have clear and consistent boating safety regulations with ample federal funds to administer safety and educational programs.

I ask for your support extending an effective program that has successfully saved lives.
