#### HB 246 SPORT FISH GUIDE LICENSES

HB 246 extends Alaska's sport fish guide licensing and reporting program for one year. The data collected through this program has been an important tool for the proper management of sport fisheries through a better understanding of our fish stocks and their harvest. In addition, the licensing has ensured a standard for professionalism and responsibility for sport fish businesses and guides, benefiting both consumer and businesses alike.

The data collected through the reporting program is important in Alaska's exemption from the National Saltwater Angler Registry which will prevent Alaskans from purchasing a certificate of registration.

The sport fish guide licensing program provides necessary data for the wise management of Alaska's fish resources while ensuring professionalism in the guiding industry and preventing the need for further licensing and registration for Alaskan anglers.

## ANALYSIS: (Attach a separate page if necessary)

The division has budgeted \$437.6 in the FY11 Governor's budget to administer the Sport Fish operator/guide/vessel program. The program generates average Fish & Game Fund revenues of \$242.8, with the balance of program expenditures funded with Sport Fishing license sale revenue. Although potential cost savings measures are being implemented, it is untenable at this time to make accurate projections on what monetary savings will be realized for this program over the upcoming years.

**Background:**

- Original legislation passed in May, 2004; effective January 1, 2005.
- Proposed by the Department for three main reasons:
  1. Information on guide numbers and their fishing activities was either not available or limited in many parts of the state;
  2. Establish minimum standards to operate a business or contract as a guide (safety, liability insurance, US Coast Guard license, etc.) as a means to increase professionalism and reduce speculative entry; and
  3. Provide comprehensive and credible data on guided sport fishing activities to regulatory agencies: Alaska Board of Fisheries (BOF), International Pacific Halibut Commission (IPHC), and North Pacific Fisheries Management Council (NPFMC).

**Legislation:**

**Sec.16.40.260** Sport fishing operator license;

**Sec.16.40.270** Sport fishing guide license;

**Sec.16.40.280** Reports;

**Sec.16.40.290** Penalties for violations.

These legislative sections include licensing provisions and fees (AS. 16.05.340(a)) for sport fishing business owners (\$100), sport fishing guides working for the business (\$50), and business owners who are also a guide (owner/operator combo \$100). The mandatory reporting requirements, logbooks, are for both fresh and saltwater guide activities (freshwater logbooks were instituted in 2005). The penalties for sport fish guiding violations by business owners and guides include possible revocation of their license.

**Companion Regulations:**

**5 AAC 75.075** Sport fishing services and sport fishing guide services; license requirements; regulation of activities.

**5 AAC 75.076.** Sport fishing services and sport fishing guides reporting requirements.

**5 AAC 75.077.** Sport fishing guide vessel registration requirements.

### **Present Benefits and Utility:**

- A comprehensive list of all sport fishing guides working in salt water is part of the data requirements that will allow Alaska to receive an exemption from participating in the National Saltwater Angler Registry (up to \$25/saltwater angler in 2011).
- The logbook data for saltwater anglers has been used extensively within the IPHC and NPFMC for rule making on Pacific Halibut.
- Both freshwater and saltwater logbook harvest data has been presented and utilized by the Alaska Board of Fisheries. Harvest estimate verification studies are being conducted comparing logbook, statewide sport fish harvest survey, and dock side creel programs.

### **Participation Statistics:**

- An average of **1,647 sport fishing business licenses** (including owner/operator combo) have been sold (2005-2009); 90% of owners are Alaskan residents.
- An average of **1,882 sport fishing guide licenses** have been sold (2005-2009); 73% of guides are Alaskan residents.
- Based on logbook data, over **2.1 million clients took 536,960 guided fishing trips** (from 2005 through 2009); 67% of clients fished in saltwater, 33% fished in freshwater and 88% of all clients were nonresidents.
- An average of **1,334 vessels in saltwater** were used for guided fishing trips (2005-2009).

### **Electronic Reporting (Modernization initiative):**

- One of Commissioner Lloyd's initiatives is modernization and timely reporting of recreational harvest data. We have been actively working on this task:
  - In July, 2009 we developed a scannable saltwater logbook form which will reduce the time lag when logbook data is available from 2 to 3 months to 1 to 2 weeks. This new form will be employed for saltwater forms statewide in 2010. Ten public meetings were held across the state to explain this new format and received nearly unanimous support from user groups and public.
  - In April, 2010 the point of sale hunting and fishing licensing program will be launched at all ADF&G regional offices. This program will be made available to all license vendors shortly thereafter.
  - We will convert the freshwater logbook to a scannable format starting in 2011.
