

DEDICATED TO IMPROVING THE ENVIRONMENT
FOR RUFFED GROUSE, WOODCOCK,
AND OTHER FOREST WILDLIFE
South Central Alaska Chapter
7650 Delridge Circle, Anchorage, Alaska 99507

February 9, 2012

The Honorable Linda Menard
State Capitol Room 9
Juneau, Alaska 99801

Dear Senator Menard,

The South Central Alaska Chapter of The Ruffed Grouse Society would like to thank you for submitting Senate Bill 159, creating a State Forest west of the Susitna River. We support creation of this Forest for a multitude of reasons not the least of which is the ability to manage our forest resources for wildlife.

The area west of the Susitna is one of the last remaining large blocks of state land in Southcentral Alaska. Establishing a state forest will ensure that the ever increasing population of this area has access to the outdoor recreation for which our state is famous and that our timber, land and wildlife resources can be managed for the benefit of all Alaskans. A state forest will also help establish and solidify a timber industry for this area. Managed timber harvests benefit wildlife that needs an age diversified forest to thrive and would help reduce the potential for devastating fires such as the Miller Reach catastrophe.

Designation as a State Forest is, we believe, one of the least restrictive land categories possible. It allows for most uses, but would require planning and thought before implementing changes such as roads, mining, campgrounds, etc. The one restriction we know of is transfer of land into private ownership. In the past, the State has been able to meet the recreational needs of the Southcentral population through land transfers to individuals. However, the population is growing and most land with easy access, such as that bordering lakes and rivers, has already been transferred. The net effect is to block access to the remaining area. We realize there are access corridors reserved, but these are not particularly effective when it means parking your plane in front of someone's cabin to walk the right of way to a stream. Land owners tend to view such as an intrusion and clashes ensue. Additionally, owners of private land tend to want to manage all lands within view of their property. This leads to conflict when trying to manage resources on state land. In the Matanuska Valley it has hobbled the ability of Forestry to conduct timber sales and ADF&G to implement habitat improvement projects.

As currently described in SB 159, the State Forest is a convoluted collection of detached parcels taking 16 pages to describe the boundaries. A person out for recreation will have a difficult time trying to determine if they are in or out of the forest. Future disposal of land surrounding these parcels could complicate road development and access to proposed timber sales. Private ownership bounding the forest could result in the NIMBY problems we are already dealing with in other parts of Southcentral.

We would encourage you to expand the proposed boundaries to incorporate all unencumbered state land west of the Susitna River, south of the Denali Park Boundaries, North of Beluga Lake/Beluga River draining into Cook Inlet. As a minimum, the forest boundaries need to be simplified and expanded to create a buffer against treats to proper forest management by private ownership and to ensure reasonable access to the forest is available. This would preserve public access, ensure multiple use of our land, and enhance our wildlife resources for all Alaskans, now and in the future, while encouraging development of a comprehensive timber industry.

This forest will complement the three other state forests that have been successfully established. We urge the legislature to expand and pass SB 159 this session.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael W. Griffin". The signature is fluid and cursive, with a long horizontal flourish extending to the right. To the left of the signature, there is a small, stylized mark that looks like "for".

Michael W. Griffin
