## STATE OF ALASKA 2012 LEGISLATIVE SESSION

BILL NO. CSSB 145 (RES)

## Analysis

The revenue impact of this bill is indeterminate.

This bill adds new subsections (a)(6), (a)(7), (n), (o), and (p) to AS 43.55.025. Subsections (n) and (o) authorize production tax credits for drilling 4 exploration wells and conducting 4 seismic exploration projects in the 6 areas, or basins, indentified in new subsection (p) of the bill. The new credit amounts are defined in subsections (a)(6) and (a)(7). Subsection (a)(6) authorizes a credit which is the lesser of \$22.5 million or 80% of the exploration drilling expenditures for each well described in subsection (n) that qualify under subsections (b), (c) and (p) of AS 43.55.025. Subsection (a)(7) authorizes a credit which is the lesser of \$7.5 million or 75% of each seismic exploration project described in (o) that qualify under subsections (b) and (p) of AS 43.55.025. Only expenditures occurring after June 1, 2012 and before July 1, 2016 qualify under the bill.

The bill also adds a new subsection (p) to AS 43.55.011. This new subsection states that, for a period of seven years following the commencement of commercial production from a lease or property or unit south of 68 degrees North latitude (but not including Cook Inlet) that did not have oil or gas production prior to January 1, 2013, the tax rate for any new production in these areas would be 4% of the gross value at the point of production.

The fiscal impact of this bill is indeterminate. If four qualifying wells are drilled for the maximum allowed credit for each well of \$22.5 million, the financial impact to the state would be \$90 million. If four qualifying seismic exploration projects are conducted at the maximum allowed credit of \$7.5 million, the financial impact to the state would be \$30 million for a total of impact of \$120 million if all credits proposed in the bill are earned.

The Department of Revenue could administer the provisions of this bill with existing resources.
