Subject: HB 356

Mr. Seaton-

I would like to voice my support for the No Net Loss bill. If I understand it correctly, this will enable users and our group to help acquire and maintain trails for all users.

Sincerely,

Steve Parizek, Pres. Snomads Inc.

Subject: Support of HB 356

Please support the Following in its entirety.

HB 356 would require that current land managed by the Department of Natural Resources (DNR) and the Department of Fish and Game (DFG) remains open for "trapping and sport and subsistence hunting." Furthermore, any land that has to be closed for reasons pertaining to public safety or wildlife management must be compensated for by the opening of the same amount of land elsewhere.

Subject: HB 356

Hello Mr. Feige,

I urge you to support HB 356, this legislation is perhaps late in coming but better late than never. Over the past 40 years I have seen the deterioration of available public lands for hunters. Hunters paved the way for most of the trails that lead into the back country and now are being excluded. Hunters pay much more than their fair share towards conservation and management of all wildlife species and while we don't feel we deserve more access than others, we certainly feel it should be equal.

Sincerely,

Steven A. Meyer
