FISCAL NOTE

STATE OF ALASKA
2011 LEGISLATIVE SESSION

BILL NO. HB 164

Analysis

This legislation addresses an amendment to federal law (the Nonadmitted and Reinsurance Reform Act of 2010) effective in June 2011 that changes how premium taxes on Surplus Lines insurance can be collected and allocated. This legislation will avoid loss of revenue from premium tax.

The bill addresses various financial changes such as risk based capital tests, one of which will be an accreditation standard on 1/1/2012, requirements for filing biographical affidavits for domestic insurance company officers and directors and changes in the collateralization of certain reinsurance obligations.

Two provisions of this bill address insolvencies of insurance companies. One adds provisions to receivership statutes to address large deductible policies and payment of deductibles to the guaranty fund. The other increases the coverage in Alaska Life and Health Insurance Guaranty Association to \$250,000 for annuity benefits.

Consumer protection provisions include amending the long term care statutes to conform to the NAIC long term care model act and to require filing and approval of premium rates, filing and approval of health insurance rates for all companies offering health insurance in Alaska and requiring notifications of lapse, cancellation or changes in premiums for health insurance policies. Also included is a provision to make forging of an insurance document a felony regardless of the intent to defraud.

This legislation would eliminate the requirement of "individual in a firm" license type which will allow individuals to change employers without additional filings, fees or notification requirements as well as eliminate most late notification penalties. This legislation will also allow for communication by electronic methods.

The agency does not predict a significant fiscal impact as a result of the proposed statute. Accordingly, the agency submits a zero fiscal note.
