To Whom It May Concern:

On behalf of Prince William Sound Economic Development District, I would like to offer our support for Senate Bill No. 34 to establish an Alaska Small Business Revolving Loan Fund. This would be extremely helpful to those in our state who wish to open a new business.

SB34 would provide loans for working capital, equipment, construction or other purposes needed to start a business in Alaska.

We, therefore, support Senate Bill No. 34.
