**Subject:** HB155 Support

My name is Craig Compeau and I strongly support HB155. As a lifelong Alaskan, business owner, and road service commissioner for the past 20+ years, I see the need to control costs on the smaller, less technical jobs that we often require for maintenance and upkeep of our subdivision.

HB155 would go a long way to improve this situation, and allow for more repairs of this type that are often needed to improve our area roads, ditches, etc.
