**Subject:** fire retardant bill

March 12, 2011

Dear State House Labor & Commerce Committee:

Re: HB 63

Please hold for review, HB 63. It's just doesn't make sense to get in the way of a federal system that is underway , that will transition out, some flame retardants in next year and a half and replace with a new generation of safety products.

I opt for safety.

I appreciate your consideration of my views.

Andy Miller
