**Why this fiscal note differs from previous version (if initial version, please note as such)**

After further review of the requirement to extend an absentee by-mail application following the act of voting, the division has determined that programming modifications will be required in the statewide voter registration system. This amount is \$21.0. In order to ensure the integrity of the process, the division would send confirmation notices at the beginning of each election year to all voters designated as permanent absentee voters to ensure the address on file is still accurate. The division estimates postage and printing costs of \$20.0. This amount would be a recurring cost during each election year.

**BILL NO.** HB287

**Analysis**

This bill proposes to allow an absentee by-mail ballot application from a qualified voter be valid for the next two regularly scheduled general elections. If a voter casts an absentee by-mail ballot the application would remain valid through the next two regularly scheduled general elections.

Currently state law allows an absentee by-mail application for absent uniformed services or absent overseas voters to be valid for the next two regularly scheduled general elections. Voting an absentee ballot does not currently extend their by-mail application.
