#### A BILL

## FOR AN ACT ENTITLED

"An Act relating to a tax credit for qualified research and development expenditures; and providing for an effective date."

## BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

\* Section 1. AS 43.20 is amended by adding a new section to article 1 to read:

**Sec. 43.20.047.** Qualified research and development tax credit. (a) Subject to the terms and conditions of this section and in addition to any other credit authorized to the taxpayer by this chapter, a taxpayer may apply 20 percent of the taxpayer's expenditure for qualified research and development attributable to this state for the taxable year that exceeds the base amount as a credit not to exceed \$10,000,000 against the state tax liability imposed on the taxpayer under this chapter.

(b) Qualified research and development expenditures are attributable to this state if the research and development is being conducted in this state or the payroll of employees conducting the research and development is in this state. In this subsection, payroll of an employee is in this state if compensation is paid to an employee in this

state and reported as paid in this state in the quarterly contribution report under AS 23.20 to the Department of Labor and Workforce Development.

- (c) If the tax credit under this section exceeds the taxpayer's tax liability after other tax credits are taken under this chapter for the year in which the expenditure is incurred, the excess of the tax credit over the liability may be carried forward for up to seven years. If an unused credit is carried forward to a tax year from an earlier year, the credit arising in the earliest year is applied first against the tax liability for the year.
- (d) A person may not claim a credit under this section for qualified research and development expenditures that were deducted in the calculation of tax liability under AS 43.20.011(e) or for which any other credit, including any federal credit, has been claimed under this title.
- (e) Each year, if three or more taxpayers claim the credit authorized under this section during the immediately preceding year, the department shall report the number of taxpayers who claimed credits under this section in the prior year, the total cumulative amount of credits granted to all taxpayers under this section for the prior tax year, and the total cumulative number of employees conducting the research and development for which all taxpayers claim the credit.

## (f) In this section,

- (1) "base amount" means the average of qualified research and development expenditures attributable to this state for the three tax years immediately preceding the taxable year for which the credit is being claimed;
- (2) "qualified research and development" has the meaning given to "qualified research" in 26 U.S.C. 41(d) (Internal Revenue Code), as amended, that is attributable to this state.

\* Sec. 2. This Act takes effect immediately under AS 01.10.070(c).
