FISCAL NOTE

STATE OF ALASKA 2012 LEGISLATIVE SESSION

BILL NO. SB182

Analysis

This bill amends the amount of per pupil funding provided to districts through the pupil transportation funding formula at AS 14.09.010. The current program provides state funding for pupil transportation by assigning each participating district an individual per student factor, and then multiplying the factor by the current annual average daily membership (ADM) to arrive at each districts annual funding.

The bill sets rates for FY2012 (section 4) and then resets rates for FY2013 (section 1) and thereafter.

For FY2012 the bill replaces the existing per student factors in statute with new per student amount.

The fiscal note calculation for FY2012 in the amount of \$8.0 million is calculated by using the new per student factors in section 4 multiplied by FY2012 preliminary ADM.

For FY2013 and years thereafter the pupil transportation reimbursement funding is set as follows: "the amount reported to the department in the audited financial statement of the school district as actual pupil transportation expenditures for the school year ending June 30, 2012," plus the addition of an annual CPI index.

Based on the language in this section for FY2013 and thereafter the funding formula no longer uses ADM in the pupil transportation formula, but rather will set the reimbursement by actual FY2012 audited expenditures plus annual CPI increases.

FY2012 expenditures are in process and will continue to accumulate until June 30, 2012. This amount is unknown at this time.

The fiscal note increase of \$19.9 million for FY2013 was calculated as follows: The most recent audited expenditures for FY2011 were increased by 26% to reflect possible increases to contracts, plus a consumer price increment of 3.2% based on the most recent reported annual Anchorage CPI. The 26% increase was based on recent contract increases in larger Alaska school districts. Without a certain dollar increase this approximates potential growth of the program under SB182.

Section 1 of the bill changes the current funding formula methodology and rates beginning in FY2013 by basing the amount of funding a school district would receive on the audited expenditures each district reports in the June 30, 2012 audited financial statements plus, an annual consumer price index multiplier stated in section 2 of the bill.

Section 2 of the bill applies an annual Consumer Price Index (CPI) based on the Anchorage metropolitan area CPI compiled by the United States Department of Labor, Bureau of Labor Statistics.

Section 3 is repealed.

Section 4 is applicable only to funding for FY2012, future years fall under the calculation at section 1.

Page one of the fiscal note estimates the total funding for the program for fiscal years 2013 to 2018 and supplemental funding for FY2012 as explained above.
