ESA Special Education Service Agency

What is the Special Education Service Agency (SESA)?

SESA is an educational service agency comprised of a core low incidence disability service inclusive of a statewide lending library. Low incidence disabilities include autism, hearing impairment, vision impairment, emotional disabilities and multiple disabilities. In addition, SESA operates four grants:

- 1. Alaska Autism Resource Center (AARC)
- 2. Educational Transition Support Project (ETSP)
- 3. Alaska Deaf Blind Project (DSI)
- 4. Guiding and Investing in New Special Educators (GAINS)

SESA was created in 1986 by the Alaska State Legislature to provide the following special education services to Alaska's school districts:

- A. Itinerant outreach services to students who are autistic, deaf, deafblind, cognitively impaired, hearing impaired, blind and visually impaired, orthopedically disabled, health impaired in other ways, severely emotionally disturbed, and to students with multiple disabilities.
- B. Special education instructional support and training of local school district special education personnel; and
- C. Other services appropriate to special education needs.

Impact on Students & Teachers

- 1. Reduced ability to promote evidenced based practices.
- 2. Fewer on-site visits to provide targeted interventions.
- 3. Shorter visits to maximize travel dollars to include more sites.
- 4. Less time for classroom observation and program enhancement.
- 5. Loss of guidance to new special education teachers and to classroom teachers encountering unique disabilities.
- 6. Loss of child specific educational intervention strategies modeled on-site to teachers.
- 7. Reduced ability to recruit quality specialists to Alaska.

2004 Individuals with Disabilities Education Act (IDEA)

The State is required to meet the 2004 IDEA to "ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designated to meet their unique needs."

The Legislature intended for SESA to help DEED fulfill this requirement by assisting schools with providing special education children affected by LID.

Legislative Audit Report

June 22, 2012

Recommendation #1: Reiterating from the prior report that the Legislature should review SESA funding; and

"Over the past 14 years, school districts have received increases in their funding formula, yet SESA's funding formula has not increased. ...the historical process for evaluating and increasing SESA funding has been a legislative process..."

Legislative Audit Report

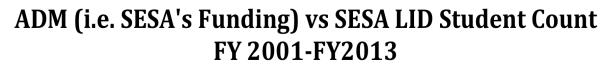

June 22, 2012

"Due to inflation, the real value of SESA'S LID budget, as established 14 years ago, has decreased 36 per cent. Accounting for inflation since 1998, SESA's funding formula in today's dollars would be approximately \$21.50 per student rather than the current funding formula amount of \$15.75. As a result, SESA is experiencing challenges with recruiting and retaining education specialists with specialized disability endorsements and meeting schools' need for itinerant outreach services."

Senate Bill 17 Conclusion

- 1. Alaska Statute Funding Calculation for SESA should be changed to \$21.50
- 2. SESA needs these funds to:
 - (a) fulfill the intent of the Legislature, and the mandate of the 2004 IDEA;
 - (b) provide competitive salaries to attract and retain qualified specialists;
 - (c) continue providing quality services for LID children;
 - (d) maintain consistent infrastructure despite short term or discontinued grant funding cycles.

How SESA's Funding Should be Structured VERSUS How it is Currently Structured

Contracts
Federal Grants

State of Alaska Grants

Low Incidence Disabilities

With this structure, SESA is built upon providing LID services, and its funding reflects same.

With the current funding structure, LID payments are insufficient to provide the LID services requested by districts.

Impact of Continued Under-Funding:

- 1. Reduced ability to promote evidenced based practices.
- 2. Fewer on-site visits to provide targeted interventions.
- 3. Shorter visits to maximize travel dollars to include more sites.
- 4. Less time for classroom observation and program enhancement.
- 5. Loss of guidance to new special education teachers and to classroom teachers encountering unique disabilities.
- 6. Loss of child specific educational intervention strategies modeled on-site to teachers.
- 7. Reduced ability to recruit & retain quality specialists.
