FISCAL NOTE ANALYSIS #7

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. SB 139

Analysis

Bill Language:

This bill expands the education credit allowed against corporate income tax, mining license tax, fisheries business tax, and fishery resource landing tax to include contributions made for funding scholarships awarded to dual-credit students for tuition, registration, course and textbook fees and for contributions made for the construction, operation, or maintenance of a residential housing facility by a residential school approved by the Department of Education and Early Development.

Revenues:

This bill does not increase or decrease the aggregate amount of total education tax credits allowed against the tax types identified above. It merely identifies two additional types of contributions that can qualify for the credit. It is possible that taxpayers who have not made qualifying contributions and not claimed an education tax credit in the past, may contribute to one or both of these types of entities and claim a credit. However, it is difficult to determine the affect this bill will have on taxpayer behavior and, therefore, it is difficult to determine if this bill will affect revenue from the tax types identified above. It is important to note that the total education tax credit allowed for each entity each year is currently capped at \$5 million across all tax types. This bill does not increase the maximum contribution amount.

Expenditures:

Department of Revenue can implement and administer the provisions of this bill utilizing existing resources.
