FISCAL NOTE ANALYSIS

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. HB297

Analysis

This bill recognizes Alaska Housing Finance Corporation (AHFC) as the authorizing agency to approve home energy rating systems (HERS) utilized in Alaska.

AHFC currently has its own AKWarm home energy rating system and software that has been in use, and continuously updated, since 1996. It is specifically designed for Alaska and is recognized by the Alaska building, real estate and home loan industries and is directly tied to AHFC programs, including the Home Energy Rebate and Weatherization programs, interest rate reductions for home loans and Alaska Building Energy Efficiency Standards. The software is available to all at no cost.

In the event that another home energy rating system is submitted to AHFC for approval, that software will require review and testing to ensure Alaska's varied and extreme climatic conditions are appropriately addressed and equivalent to AKWarm.

The cost of testing and review is expected to be covered by the requestor and/or U.S. Department of Energy funds. As a result, there is no fiscal impact to AHFC anticipated for this bill.

Regulations will be developed to identify the process for which new software packages will be evaluated, addressing Alaska's unique climatic and geographic diversity. Estimated time to write new regulations, have appropriate hearings, and get AHFC Board of Directors approval will take approximately six months.
