HOUSE JOINT RESOLUTION NO. 26

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-EIGHTH LEGISLATURE - SECOND SESSION

BY REPRESENTATIVES SADDLER, Nageak, Costello, Feige, Austerman, Holmes, Herron, Hughes

Introduced: 2/17/14
Referred: Resources

A RESOLUTION

Urging the United States Congress to provide a means for consistently and equitably sharing with all oil and gas producing states adjacent to federal outer continental shelf areas a portion of revenue generated from oil and gas development on the outer continental shelf to ensure that those states develop necessary infrastructure to support outer continental shelf development and preserve environmental integrity.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

WHEREAS oil and gas development in federal areas, both onshore and offshore, requires additional investment in state infrastructure and increases demand on state and local government resources; and

WHEREAS, under the Mineral Lands Leasing Act of 1920, the federal government recognizes the effects of oil and gas development in federal onshore areas by sharing with the states 50 percent of revenue from mineral production on federal land within each state's boundaries; and

WHEREAS, under the Outer Continental Shelf Lands Act, the federal government recognizes the effect oil and gas development in federal near-shore areas has on states by
sharing with those states 27 percent of revenue collected from federal oil and gas leases within three miles of the states’ coastlines; and

WHEREAS, under the Gulf of Mexico Energy Security Act of 2006, the federal government recognizes the effect that oil and gas development in federal offshore areas has on the states of Alabama, Louisiana, Mississippi, and Texas, and recognizes the contributions to national energy, security, and economic interests made by sharing with those states 37.5 percent of revenue from federal oil and gas leases in outer continental shelf areas adjacent to each state; and

WHEREAS the federal government fails to recognize the same effects on and contributions made by other oil and gas producing states adjacent to federal outer continental shelf areas, including this state and California; and

WHEREAS the Alaska outer continental shelf region encompasses the Beaufort, Chukchi, and Bering seas, Cook Inlet, and the Gulf of Alaska, includes over 1,000,000,000 acres, and contains more than 6,000 miles of coastline, which is more coastline than the rest of the United States combined; and

WHEREAS there are presently 607 active oil and gas leases and more than 3,300,000 acres of leased land in the Alaska outer shelf continental region; and

WHEREAS federal government grants do not adequately address the need for additional investment in state infrastructure or the increased demands on state and local government resources resulting from outer continental shelf development, especially in this state, which has more coastline, more rural communities, and less infrastructure than any other state; and

WHEREAS outer continental shelf revenue sharing would allow states to build infrastructure such as marine ports, airports, utilities, and housing, and increase state services, such as oil spill and emergency response and environmental monitoring and mitigation, which would likely lead to expanded, safer exploration and development activity and increase overall revenue to the federal government; and

WHEREAS additional state infrastructure and increased availability of state and local government resources would likely increase interest in and bids during future federal outer continental shelf oil and gas lease sales, which have generated over $2,750,000,000 in revenue for the federal government in the Alaska outer continental shelf region alone since
2005; and

WHEREAS outer continental shelf revenue sharing could provide a stable funding source for and help fulfill the mission of the Land and Water Conservation Fund, a national fund created to safeguard natural areas, water resources, and cultural heritage and to provide recreation opportunities;

BE IT RESOLVED that the Alaska State Legislature urges the United States Congress to provide a means for consistently and equitably sharing with all oil and gas producing states adjacent to federal outer continental shelf areas a portion of revenue generated from outer continental shelf oil and gas production to ensure the states develop necessary infrastructure to support outer continental shelf development and preserve environmental integrity.

COPIES of this resolution shall be sent to the Honorable Barack Obama, President of the United States; the Honorable Joseph R. Biden, Jr., Vice-President of the United States and President of the U.S. Senate; the Honorable Sally Jewell, United States Secretary of the Interior; the Honorable John Boehner, Speaker of the U.S. House of Representatives; the Honorable Eric Cantor, Majority Leader of the U.S. House of Representatives; the Honorable Nancy Pelosi, Minority Leader of the U.S. House of Representatives; the Honorable Harry Reid, Majority Leader of the U.S. Senate; the Honorable Mitch McConnell, Minority Leader of the U.S. Senate; the Honorable Mary Landrieu, Chair of the U.S. Senate Committee on Energy and Natural Resources; the Honorable Lisa Murkowski and the Honorable Mark Begich, U.S. Senators, and the Honorable Don Young, U.S. Representative, members of the Alaska delegation in Congress; and all other members of the 113th United States Congress.
