Mary P. Siroky, Administrative Services Director

Department of Transportation and Public Facilities

FISCAL NOTE ANALYSIS

STATE OF ALASKA 2014 LEGISLATIVE SESSION

BILL NO. SB177

Analysis

This bill requires tower owners to mark, paint, light, and register their tower information with Department of Transportation and Public Facilities (DOT&PF). This would require a new full-time Transportation Planner I (range 21A) at DOT&PF for two years, and 1/4 time Transportation Planner I for subsequent years. The Transportation Planner I would establish and manage the database, web interface, interactive map, and any necessary enforcement.

Additionally the bill would require DOT&PF to make the tower information available on the department's internet website using a sortable database and an interactive map. It would cost \$150.0 for a contractor to develop the required database and internet interactive map.

Costs:

Transportation Planner I \$109.1 (personal services) FY 17-20 = .25 FTE

Core Services \$2.0 (services)
Commodities \$.5 (commodities)

Contractor Costs \$150.0 (services)-One-time
Computer & Furniture \$7.5 (commodities)-One-time

Total \$269.1
