SUMMATION

My 32 years of service with the Department of Public Safety has afforded me the opportunity to travel to every part of Alaska and to witness first-hand the uniqueness of its geography and people, and to experience every aspects of the public safety mission. I have fostered lasting relationships in communities throughout our great state and will continue to do so with all Alaskans, their cultures, and social issues.

My passion to serve the people was instilled at an early age, and it is an honor and privilege to be able to continue my service to the people of Alaska as Commissioner of the Department of Public Safety and help ensure safe and strong communities.
