Subject: Voice of Support for SB 189

Dear Sirs,

It's a firm belief of mine that all Alaskan's should have the right to build their own home, at their discretion, and under no circumstances should that ability ever be taken away from them.

It is also imperative that the owner builder law be strenghtened to prevent unlicensed and unscrupulous contractors from performing business on a regular basis without any fear of recourse.

I, Aaron Welterlen, President of W. V. Builders Inc., support SB 189 and it's intent to limit the ability of unlicensed contractors to continually build multiple homes at the same time. At the same time, SB 189 will continue to allow the tried and true owner builders of Alaska to continue on with their dreams of building their own home in this great state.

Aaron Welterlen

President
