9 **BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

10 \* **Section 1.** The uncodified law of the State of Alaska is amended by adding a new section  
11 to read:

12 **LEGISLATIVE FINDINGS AND INTENT.** (a) The legislature finds that

13 (1) the future oil and gas development in the state is of vital public interest,  
14 particularly the commercial development of the gas deposits from the North Slope; that  
15 development will include major infrastructure components, including a natural gas pipeline,  
16 associated infrastructure, a gas treatment facility, a liquefaction facility, and a marine  
17 terminal;

18 (2) much of the infrastructure required for commercial development of North  
19 Slope natural gas will be within the boundaries of local governmental entities located within  
20 or along the natural gas pipeline route and at the pipeline terminus at tidewater;

21 (3) the development of North Slope natural gas will provide benefits to the  
22 state including employment opportunities and royalty and tax revenues, including tax revenue  
23 under AS 43.56 (Oil and Gas Exploration, Production, and Pipeline Transportation Property  
24 Taxes), and could provide delivery of natural gas to communities along the natural gas  
25 pipeline route from the North Slope to a terminus point with liquefaction and marine terminal  
26 facilities;

27 (4) the commissioner of natural resources will be authorized, through this  
28 legislation, to enter short-term commercial agreements and to negotiate with the developers

1 and other parties in order to secure the state's participation through contracts, which will be  
2 presented to the legislature for authorization;

3 (5) the interests of the state and local governmental entities must be  
4 considered in contract negotiations to protect the financial and other interests of the state and  
5 those local governmental entities.

6 (b) It is therefore the intent of the legislature to provide the commissioner of natural  
7 resources with the authority necessary to enter short-term commercial agreements and  
8 negotiate contracts and develop terms for inclusion in proposed contracts, subject to  
9 legislative approval, associated with a North Slope natural gas project and that the  
10 commissioner of natural resources, in those negotiations, consider and suggest for  
11 incorporation into contracts terms for state participation in a North Slope natural gas project  
12 that include

13 (1) subject to confidentiality agreements, provisions for reasonable disclosure  
14 of information related to the state's interest in a North Slope natural gas project including  
15 liquefaction, to representatives of the state administration when those representatives are  
16 acting in a proprietary capacity;

17 (2) access and pro-expansion principles, opportunities for delivery of gas to  
18 Alaskans, payments in lieu of property taxes on a unit rate per throughput basis, and serial  
19 impact payments to be paid by the developers of a North Slope natural gas project to help  
20 offset increased services and other costs borne by the state and local governments;

21 (3) to the extent permitted by law, seek to negotiate separately with producers  
22 of North Slope gas regarding the purchase or other disposition of liquefied natural gas made  
23 from the state's share of natural gas delivered to a liquefaction facility in the state;

24 (4) to the extent permitted by law, provisions for labor agreements,  
25 employment of Alaska residents, contracts with Alaska businesses, and provisions to work  
26 with state job centers, associated services and job training services.

1 **mechanisms to deliver natural gas in-state that benefits the state and the people**  
2 **of the state;**

3 **(2) when developing natural gas pipelines, an Alaska liquefied**  
4 **natural gas project, and other transportation mechanisms to deliver natural gas**  
5 **in-state, provide economic benefits in the state, and revenue to the state;**

6 **(3) assist the Department of Natural Resources and the**  
7 **Department of Revenue to maximize the value of the state's royalty natural gas,**

14 **state natural gas pipeline in a safe, prudent, economical, and efficient manner, for the**  
15 **purpose of making natural gas, including propane and other hydrocarbons associated**  
16 **with natural gas other than oil, available to Fairbanks, the Southcentral region of the**  
17 **state, and other communities in the state at the lowest rates possible;**

18 **(5) advance an Alaska liquefied natural gas project by developing**  
19 **infrastructure and providing related services, including services related to**

31 **commercially reasonable rates; and**

1                    (7) [(3)] endeavor to develop natural gas pipelines and other  
2 transportation mechanisms that offer commercially reasonable rates for shippers and  
3 access for shippers who produce natural gas, including propane and other  
4 hydrocarbons associated with natural gas other than oil, in the state.

5 \* **Sec. 3.** AS 31.25.010 is amended to read:

6                    **Sec. 31.25.010. Structure.** The Alaska Gasline Development Corporation is a  
7 public corporation and government instrumentality acting in the best interest of the  
8 state for the purposes required by AS 31.25.005, located for administrative

24 natural gas, including propane and other hydrocarbons associated with natural gas  
25 other than oil, to coastal communities in the state, or for export. A subsidiary  
26 corporation created under this section may be incorporated under AS 10.20.146 -  
27 10.20.166, **or other law applicable to the incorporation of the subsidiary**  
28 **corporation. Subject to the exceptions and limitations for the use of money**  
29 **appropriated to the in-state natural gas pipeline fund (AS 31.25.100) and the**  
30 **Alaska liquefied natural gas project fund (AS 31.25.110), the** [. THE] corporation  
31 may transfer assets of the corporation to a subsidiary created under this section. A

1 subsidiary created under this section may borrow money and issue bonds as evidence  
2 of that borrowing and has all the powers of the corporation that the corporation grants  
3 to it. Unless otherwise provided by the corporation, the debts, liabilities, and

12 corporation exceed an amount required to fulfill the purposes of the corporation as  
13 defined in this chapter; in making its review, the board shall determine whether, and to  
14 what extent, assets in excess of the amount required to fulfill the purposes of the  
15 corporation during the next fiscal year are available without

16 (A) breaching an agreement entered into by the corporation;

18 the corporation; or

19 (C) materially affecting the ability of the corporation to fulfill  
20 the purposes of the corporation as defined in this chapter;

21 (2) specifically identify in the corporation's assets the amounts that the  
22 board believes are necessary to meet the requirements of (1)(C) of this subsection; and

23 \* **Sec. 17.** AS 38.05.180(i) is amended to read:

24 (i) The commissioner may provide for the establishment of an exploration  
25 incentive credit system under which a lessee of state land drilling an exploratory well  
26 on that land may earn credits based **on** [UPON] the footage drilled and the region in  
27 which the well is situated. The commissioner may also provide for credits to be earned  
28 by persons performing geophysical work on state land, if that work is performed  
29 during the two seasons immediately preceding an announced lease sale and on land  
30 included within the sale area and the geophysical information is made public  
31 following the sale. Credits may not exceed 50 percent of the cost of the drilling or

1 geophysical work. Credits may be used during a limited period established by the  
2 commissioner and may be assigned during that period. Credits may be applied against  
3 (1) royalty and rental payments for oil and gas or for gas only payable to the state or  
4 (2) taxes payable under AS 43.55.011 [AS 43.55]. A credit may not exceed 50 percent  
5 of the payment toward which it is being applied. Amounts due the Alaska permanent  
6 fund (AS 37.13.010) shall be calculated before the application of credits under this  
7 subsection.

8 \* **Sec. 18.** AS 38.05.180 is amended by adding new subsections to read:

9 (hh) Notwithstanding (j) of this section, the commissioner may propose  
10 modification to a lease from which a lessee has committed gas from that lease to a  
11 North Slope natural gas project. A modification may be made under this subsection  
12 only after the commissioner makes the written determination under (ii) of this section  
13 that the lease may be modified. If a modification is made, the modification shall be in  
14 effect during the initial project term that has acquired the major permits required for  
15 the work plan and budget considered by the commissioner in the written determination  
16 under (ii) of this section. A modification under this subsection may

17 (1) relate to switching between taking the state's royalty gas in value  
18 and in-kind to ensure that the lessee, the state, or another person shall bear  
19 proportionate costs for treatment, transportation, and liquefaction to the state's royalty  
20 gas, and the state's actions do not unreasonably interfere with the long-term marketing  
21 of natural gas by the lessee, the state, or another person;

22 (2) provide a method for establishing a fair market value for each  
23 component of the state's royalty gas and appropriate adjustments to reflect fair market  
24 deductions for reasonable costs for treatment, transportation, and liquefaction for the  
25 state's royalty gas from the North Slope to the destination market; in this paragraph,  
26 "reasonable costs for treatment, transportation, and liquefaction" may not be greater  
27 than actual costs;

28 (3) modify net profit shares for oil and gas and sliding scale royalty  
29 rates for gas by establishing fixed royalty rates that yield a value to the state that the  
30 commissioner determines to be not less than the value the state would have received  
31 under the terms of the lease before a modification under this subsection.

1 (ii) Before making a modification to a lease under (hh) of this section, the  
2 commissioner shall make a written determination that the lease may be modified. The  
3 determination by the commissioner must be based on a clear and convincing showing  
4 by the lessee that

5 (1) the modification

6 (A) is in the best interests of the state; and

7 (B) will materially improve the likelihood of a successful North  
8 Slope natural gas project;

9 (2) the North Slope natural gas project has sufficient

10 (A) financial commitment for a work plan and budget  
11 necessary to support major permits and regulatory filings required by state and  
12 federal agencies; and

13 (B) commitment of gas by lessees; and

14 (3) the lease will produce hydrocarbons that will be transported on the  
15 North Slope natural gas project during the initial project term.

16 \* **Sec. 19.** AS 38.05.180(hh), as enacted in sec. 18 of this Act, is amended to read:

17 (hh) Notwithstanding (j) of this section, the commissioner may propose  
18 modification to a lease from which a lessee has committed gas from that lease to a  
19 North Slope natural gas project. A modification may be made under this subsection  
20 only after the commissioner makes the written determination under (ii) of this section  
21 that the lease may be modified. If a modification is made, the modification shall be in  
22 effect during the initial project that has acquired the major permits required for the  
23 work plan and budget considered by the commissioner in the written determination  
24 under (ii) of this section. A modification under this subsection may

25 (1) relate to switching between taking the state's royalty gas in value  
26 and in-kind to ensure that the lessee, the state, or another person shall bear  
27 proportionate costs for treatment, transportation, and liquefaction to the state's royalty  
28 gas **or gas delivered to the state under AS 43.55.014**, and the state's actions do not  
29 unreasonably interfere with the long-term marketing of natural gas by the lessee, the  
30 state, or another person;

31 (2) provide a method for establishing a fair market value for each

1 component of the state's royalty gas and appropriate adjustments to reflect fair market  
2 deductions for reasonable costs for treatment, transportation, and liquefaction for the  
3 state's royalty gas from the North Slope to the destination market; in this paragraph,  
4 "reasonable costs for treatment, transportation, and liquefaction" may not be greater  
5 than actual costs;

6 (3) modify net profit shares for oil and gas and sliding scale royalty  
7 rates for gas by establishing fixed royalty rates that yield a value to the state that the  
8 commissioner determines to be not less than the value the state would have received  
9 under the terms of the lease before a modification under this subsection.

10 \* **Sec. 20.** AS 38.05.183(a) is amended to read:

11 (a) The sale, exchange, or other disposal of a mineral obtained by the state as a  
12 royalty under AS 38.05.182, [OR] the sale, exchange, or other disposal in whole or in  
13 part of a right to receive future mineral production under a state lease under this  
14 chapter, **or the sale, exchange, or other disposal of gas delivered to the state under**  
15 **AS 43.55.014(b)** shall be by competitive bid and the sale, exchange, or other disposal  
16 made to the highest responsible bidder, except that competitive bidding is not required  
17 when the commissioner, after prior written notice to the Alaska Royalty Oil and Gas  
18 Development Advisory Board under AS 38.06.050, determines that the best interest of  
19 the state does not require it or that no competition exists.

20 \* **Sec. 21.** AS 38.05.183(c) is amended to read:

21 (c) If the commissioner determines that a sale, exchange, or other disposal of a  
22 mineral obtained by the state as a royalty under AS 38.05.182, [OR] of a right to  
23 receive future mineral production under a state lease under this chapter, **or of gas**  
24 **delivered to the state under AS 43.55.014(b)** shall be made otherwise than by  
25 competitive bid, and the Alaska Royalty Oil and Gas Development Advisory Board  
26 has been notified in writing of that determination, the commissioner shall make public  
27 in writing the specific findings and conclusions **on** [UPON] which that determination  
28 is based.

29 \* **Sec. 22.** AS 38.05.183(d) is amended to read:

30 (d) Oil or gas taken in kind by the state as its royalty share **or gas delivered to**  
31 **the state under AS 43.55.014(b)** may not be sold or otherwise disposed of for export

1 from the state until the commissioner determines that the [ROYALTY-IN-KIND] oil  
2 or gas is surplus to the present and projected intrastate domestic and industrial needs.  
3 The commissioner shall make public, in writing, the specific findings and reasons on  
4 which the determination is based.

5 \* **Sec. 23.** AS 38.05.183(e) is amended to read:

6 (e) When a sale, exchange, or other disposal of oil or gas taken in kind by the  
7 state as its royalty share, or a sale, exchange, or other disposal in whole or in part of a  
8 right to receive future royalty oil or gas, under a state lease under this chapter is made  
9 other than by competitive bid, **or when a sale, exchange, or other disposal of gas**  
10 **delivered to the state under AS 43.55.014(b) is made other than by competitive**  
11 **bid**, the sale, exchange, or other disposal shall be awarded by the commissioner to the  
12 prospective buyer whose proposal offers the maximum benefits to citizens of the state.

13 The commissioner shall consider

- 14 (1) the cash value offered;
- 15 (2) the projected effects of the sale, exchange, or other disposal on the  
16 economy of the state;
- 17 (3) the projected benefits of refining or processing the oil or gas in the  
18 state;
- 19 (4) the ability of the prospective buyer to provide refined products or  
20 by-products for distribution and sale in the state with price or supply benefits to the  
21 citizens of the state; and
- 22 (5) the criteria listed in AS 38.06.070(a).

23 \* **Sec. 24.** AS 38.05.965 is amended by adding new paragraphs to read:

24 (26) "initial project term" means the duration sufficient to support an  
25 investment decision by the sponsors of a North Slope natural gas project to permit  
26 realization of a competitive economic return, to enable necessary financing, and to  
27 support agreements for the sale of hydrocarbons transported on a North Slope natural  
28 gas project;

29 (27) "North Slope natural gas project" means a project to produce  
30 natural gas from state oil and gas leases that include land north of 68 degrees North

12 may not include in any project certificate, right-of-way, permit, or other authorization  
13 a term or condition that is not required by law if the in-state gasline project  
14 coordinator determines that the term or condition would prevent or impair, in any  
15 significant respect, the expeditious construction and operation or expansion of **a**  
16 **project under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-  
17 STATE NATURAL GAS PIPELINE PROJECT].

18 \* **Sec. 27.** AS 38.34.020(c) is amended to read:

20 abrogate any certificate, right-of-way, permit, or other authorization if the in-state

23 **under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-STATE  
24 NATURAL GAS PIPELINE PROJECT].

6                   shall allow a producer to make an election, under regulations adopted by the  
7                   department, to pay in gas the production tax levied by this section in lieu of the tax  
8                   otherwise levied for the gas by AS 43.55.011(e). An election under this subsection  
9                   applies only to gas produced from oil and gas leases modified under AS 38.05.180(hh)

21                  of this title providing for interest or a penalty based on a percentage of a tax liability or  
22                  tax deficiency applies to gas for which a tax is levied by this section, the amount of the  
23                  deficiency and the tax amount on which the interest or penalty percentage is calculated  
24                  is treated for the purpose only of that calculation as having been levied by  
25                  AS 43.55.011(e) rather than this section.

26                  (e) This section does not apply to gas

28                          production of gas; or

17 (h) Notwithstanding any contrary provision of AS 43.05.280,

18 (1) an overpayment of an installment payment required under (a)(1),  
19 (2), (3), (5), (6), or (7) [(a)(1) - (3), (5) OR (6)] of this section bears interest at the rate

5 \* **Sec. 45.** AS 43.55.020(l) is amended to read:

6 (l) **For oil and gas produced on** [ON] and after January 1, 2014, **and before**  
7 **January 1, 2022,** in making settlement with the royalty owner for oil and gas that is  
8 taxable under AS 43.55.011, the producer may deduct the amount of the tax paid on  
9 taxable royalty oil and gas, or may deduct taxable royalty oil or gas equivalent in  
10 value at the time the tax becomes due to the amount of the tax paid. If the total  
11 deductions of installment payments of estimated tax for a calendar year exceed the  
12 actual tax for that calendar year, the producer shall, before April 1 of the following  
13 year, refund the excess to the royalty owner. Unless otherwise agreed between the  
14 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on  
15 taxable royalty oil and gas for a calendar year, other than oil and gas the ownership or  
16 right to which constitutes a landowner's royalty interest, is considered to be the gross  
17 value at the point of production of the taxable royalty oil and gas produced during the  
18 calendar year multiplied by a figure that is a quotient, in which

19 (1) the numerator is the producer's total tax liability under  
20 **AS 43.55.011(e)(2)** [AS 43.55.011(e)] for the calendar year of production; and

21 (2) the denominator is the total gross value at the point of production  
22 of the oil and gas taxable under AS 43.55.011(e) produced by the producer from all  
23 leases and properties in the state during the calendar year.

24 \* **Sec. 46.** AS 43.55.020 is amended by adding a new subsection to read:

25 (m) For oil and gas produced on and after January 1, 2022, in making  
26 settlement with the royalty owner for oil and gas that is taxable under AS 43.55.011,  
27 the producer may deduct the amount of the tax paid on taxable royalty oil and gas, or  
28 may deduct taxable royalty oil or gas equivalent in value at the time the tax becomes  
29 due to the amount of the tax paid. If the total deductions of installment payments of  
30 estimated tax for a calendar year exceed the actual tax for that calendar year, the  
31 producer shall, before April 1 of the following year, refund the excess to the royalty

1 owner. In making settlement with the royalty owner for gas that is taxable under  
2 AS 43.55.014, the producer may deduct the amount of the gas paid as in kind tax on  
3 taxable royalty gas or may deduct the gross value at the point of production of the gas  
4 paid as in-kind tax on taxable royalty gas. Unless otherwise agreed between the  
5 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on  
6 taxable royalty oil for a calendar year, other than oil the ownership or right to which  
7 constitutes a landowner's royalty interest, is considered to be the gross value at the  
8 point of production of the taxable royalty oil produced during the calendar year  
9 multiplied by a figure that is a quotient, in which

10 (1) the numerator is the producer's total tax liability under  
11 AS 43.55.011(e)(3)(A) for the calendar year of production; and

12 (2) the denominator is the total gross value at the point of production  
13 of the oil taxable under AS 43.55.011(e) produced by the producer from all leases and  
14 properties in the state during the calendar year.

15 \* **Sec. 47.** AS 43.55.030(a) is amended to read:

16 (a) A producer that produces oil or gas from a lease or property in the state  
17 during a calendar year, whether or not any tax payment is due under AS 43.55.020(a)  
18 for that oil or gas, shall file with the department on March 31 of the following year a  
19 statement, under oath, in a form prescribed by the department, giving, with other  
20 information required, the following:

22 produced, by name, legal description, lease number, or accounting codes assigned by  
23 the department;

27 each lease or property, **separately identifying the gross amount of gas produced**  
28 **from each oil and gas lease to which an effective election under AS 43.55.014(a)**  
29 **applies, the amount of gas delivered to the state under AS 43.55.014(b),** and the  
30 percentage of the gross amount of oil and gas owned by the producer;

31 (4) the gross value at the point of production of the oil and of the gas

1 produced from each lease or property owned by the producer and the costs of  
2 transportation of the oil and gas;

3 (5) the name of the first purchaser and the price received for the oil and  
4 for the gas, unless relieved from this requirement in whole or in part by the  
5 department;

6 (6) the producer's qualified capital expenditures, as defined in  
7 AS 43.55.023, other lease expenditures under AS 43.55.165, and adjustments or other  
8 payments or credits under AS 43.55.170;

9 (7) the production tax values of the oil and gas under **AS 43.55.160(a)**  
10 **or of the oil under AS 43.55.160(h), as applicable** [AS 43.55.160];

11 (8) any claims for tax credits to be applied; and

12 (9) calculations showing the amounts, if any, that were or are due  
13 under AS 43.55.020(a) and interest on any underpayment or overpayment.

21 gas, or oil and gas taxable under AS 43.55.011(e), less the producer's lease  
22 expenditures under AS 43.55.165 for the calendar year applicable to the oil, gas, or oil  
23 and gas in that category produced by the producer during the calendar year, as  
24 adjusted under AS 43.55.170; a separate annual production tax value shall be  
25 calculated for

26 (A) oil and gas produced from leases or properties in the state  
27 that include land north of 68 degrees North latitude, other than gas produced  
28 before 2022 and used in the state;

29 (B) oil and gas produced from leases or properties in the state  
30 outside the Cook Inlet sedimentary basin, no part of which is north of 68  
31 degrees North latitude and that qualifies for a tax credit under AS 43.55.024(a)

26 would cause an annual production tax value calculated under (a)(1) or (h) of this  
27 section of taxable oil or gas produced during the calendar year to be less than zero  
28 may be used to establish a carried-forward annual loss under AS 43.55.023(b).  
29 However, the department shall provide by regulation a method to ensure that, for a  
30 period for which a producer's tax liability is limited by AS 43.55.011(j), (k), (o), or  
31 (p), any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that would

1 otherwise be deductible by a producer for that period but whose deduction would  
2 cause a production tax value calculated under (a)(1)(C), (D), (E), [OR] (F), or (h)(3)  
3 of this section to be less than zero are accounted for as though the adjusted lease  
4 expenditures had first been used as deductions in calculating the production tax values  
5 of oil or gas subject to any of the limitations under AS 43.55.011(j), (k), (o), or (p) that  
6 have positive production tax values so as to reduce the tax liability calculated without  
7 regard to the limitation to the maximum amount provided for under the applicable  
8 provision of AS 43.55.011(j), (k), (o), or (p). Only the amount of those adjusted lease  
9 expenditures remaining after the accounting provided for under this subsection may be  
10 used to establish a carried-forward annual loss under AS 43.55.023(b). In this  
11 subsection, "producer" includes "explorer."

12 \* **Sec. 50.** AS 43.55.160(f) is amended to read:

13 (f) On and after January 1, 2014, in the calculation of an annual production tax  
14 value of a producer under (a)(1)(A) or (h)(1) [(a)(1)] of this section, the gross value at  
15 the point of production of oil or gas produced from a lease or property north of 68  
16 degrees North latitude meeting one or more of the following criteria is reduced by 20  
17 percent: (1) the oil or gas is produced from a lease or property that does not contain a  
18 lease that was within a unit on January 1, 2003; (2) the oil or gas is produced from a  
19 participating area established after December 31, 2011, that is within a unit formed  
20 under AS 38.05.180(p) before January 1, 2003, if the participating area does not  
21 contain a reservoir that had previously been in a participating area established before  
22 December 31, 2011; (3) the oil or gas is produced from acreage that was added to an  
23 existing participating area by the Department of Natural Resources on and after  
24 January 1, 2014, and the producer demonstrates to the department that the volume of  
25 oil or gas produced is from acreage added to an existing participating area. This  
26 subsection does not apply to gas produced before 2022 that is used in the state or to  
27 gas produced on and after January 1, 2022. A reduction under this subsection may  
28 not reduce the gross value at the point of production below zero. In this subsection,  
29 "participating area" means a reservoir or portion of a reservoir producing or  
30 contributing to production as approved by the Department of Natural Resources.

31 \* **Sec. 51.** AS 43.55.160(g) is amended to read:

1 (g) On and after January 1, 2014, in addition to the reduction under (f) of this  
2 section, in the calculation of an annual production tax value of a producer under  
3 (a)(1)(A) or (h)(1) [(a)(1)] of this section, the gross value at the point of production of  
4 oil or gas produced from a lease or property north of 68 degrees North latitude that  
5 does not contain a lease that was within a unit on January 1, 2003, is reduced by 10  
6 percent if the oil or gas is produced from a unit made up solely of leases that have a  
7 royalty share of more than 12.5 percent in amount or value of the production removed  
8 or sold from the lease as determined under AS 38.05.180(f). This subsection does not  
9 apply if the royalty obligation for one or more of the leases in the unit has been  
10 reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar  
11 year for which the annual production tax value is calculated. This subsection does not  
12 apply to gas produced before 2022 that is used in the state or to gas produced on and  
13 after January 1, 2022. A reduction under this subsection may not reduce the gross  
14 value at the point of production below zero.

15 \* **Sec. 52.** AS 43.55.160 is amended by adding a new subsection to read:

16 (h) For oil produced on and after January 1, 2022, except as provided in (b),  
17 (f), and (g) of this section, for the purposes of AS 43.55.011(e)(3), the annual  
18 production tax value of oil taxable under AS 43.55.011(e) produced by a producer  
19 during a calendar year

20 (1) from leases or properties in the state that include land north of 68  
21 degrees North latitude is the gross value at the point of production of that oil, less the  
22 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to  
23 explore for, develop, or produce oil or gas deposits located in the state north of 68  
24 degrees North latitude or located in leases or properties in the state that include land  
25 north of 68 degrees North latitude, as adjusted under AS 43.55.170;

26 (2) before or during the last calendar year under AS 43.55.024(b) for  
27 which the producer could take a tax credit under AS 43.55.024(a), from leases or  
28 properties in the state outside the Cook Inlet sedimentary basin, no part of which is  
29 north of 68 degrees North latitude, other than leases or properties subject to  
30 AS 43.55.011(p), is the gross value at the point of production of that oil, less the  
31 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to

1 explore for, develop, or produce oil or gas deposits located in the state outside the  
2 Cook Inlet sedimentary basin and south of 68 degrees North latitude, other than oil or  
3 gas deposits located in a lease or property that includes land north of 68 degrees North  
4 latitude or that is subject to AS 43.55.011(p) or, before January 1, 2027, from which  
5 commercial production has not begun, as adjusted under AS 43.55.170;

6 (3) from leases or properties subject to AS 43.55.011(p) is the gross  
7 value at the point of production of that oil, less the producer's lease expenditures under  
8 AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil or  
9 gas deposits located in leases or properties subject to AS 43.55.011(p) or, before  
10 January 1, 2027, located in leases or properties in the state outside the Cook Inlet  
11 sedimentary basin, no part of which is north of 68 degrees North latitude from which  
12 commercial production has not begun, as adjusted under AS 43.55.170;

13 (4) from leases or properties in the state no part of which is north of 68  
14 degrees North latitude, other than leases or properties subject to (2) or (3) of this  
15 subsection, is the gross value at the point of production of that oil less the producer's  
16 lease expenditures under AS 43.55.165 for the calendar year incurred to explore for,  
17 develop, or produce oil or gas deposits located in the state south of 68 degrees North  
18 latitude, other than oil or gas deposits located in a lease or property in the state that  
19 includes land north of 68 degrees North latitude, and excluding lease expenditures that  
20 are deductible under (2) or (3) of this subsection or would be deductible under (2) or  
21 (3) of this subsection if not prohibited by (b) of this section, as adjusted under  
22 AS 43.55.170.

23 \* **Sec. 53.** AS 43.55.165(e) is amended to read:

24 (e) For purposes of this section, lease expenditures do not include

25 (1) depreciation, depletion, or amortization;

26 (2) oil or gas royalty payments, production payments, lease profit  
27 shares, or other payments or distributions of a share of oil or gas production, profit, or  
28 revenue, except that a producer's lease expenditures applicable to oil and gas produced  
29 from a lease issued under AS 38.05.180(f)(3)(B), (D), or (E) include the share of net  
30 profit paid to the state under that lease;

31 (3) taxes based on or measured by net income;

1 (4) interest or other financing charges or costs of raising equity or debt  
2 capital;

3 (5) acquisition costs for a lease or property or exploration license;

4 (6) costs arising from fraud, wilful misconduct, gross negligence,  
5 violation of law, or failure to comply with an obligation under a lease, permit, or  
6 license issued by the state or federal government;

7 (7) fines or penalties imposed by law;

8 (8) costs of arbitration, litigation, or other dispute resolution activities  
9 that involve the state or concern the rights or obligations among owners of interests in,  
10 or rights to production from, one or more leases or properties or a unit;

11 (9) costs incurred in organizing a partnership, joint venture, or other  
12 business entity or arrangement;

13 (10) amounts paid to indemnify the state; the exclusion provided by  
14 this paragraph does not apply to the costs of obtaining insurance or a surety bond from  
15 a third-party insurer or surety;

16 (11) surcharges levied under AS 43.55.201 or 43.55.300;

17 (12) an expenditure otherwise deductible under (b) of this section that  
18 is a result of an internal transfer, a transaction with an affiliate, or a transaction  
19 between related parties, or is otherwise not an arm's length transaction, unless the  
20 producer establishes to the satisfaction of the department that the amount of the  
21 expenditure does not exceed the fair market value of the expenditure;

22 (13) an expenditure incurred to purchase an interest in any corporation,  
23 partnership, limited liability company, business trust, or any other business entity,  
24 whether or not the transaction is treated as an asset sale for federal income tax  
25 purposes;

26 (14) a tax levied under AS 43.55.011 or 43.55.014;

27 (15) costs incurred for dismantlement, removal, surrender, or  
28 abandonment of a facility, pipeline, well pad, platform, or other structure, or for the  
29 restoration of a lease, field, unit, area, tract of land, body of water, or right-of-way in  
30 conjunction with dismantlement, removal, surrender, or abandonment; a cost is not  
31 excluded under this paragraph if the dismantlement, removal, surrender, or

1 abandonment for which the cost is incurred is undertaken for the purpose of replacing,  
2 renovating, or improving the facility, pipeline, well pad, platform, or other structure;

3 (16) costs incurred for containment, control, cleanup, or removal in  
4 connection with any unpermitted release of oil or a hazardous substance and any  
5 liability for damages imposed on the producer or explorer for that unpermitted release;  
6 this paragraph does not apply to the cost of developing and maintaining an oil  
7 discharge prevention and contingency plan under AS 46.04.030;

8 (17) costs incurred to satisfy a work commitment under an exploration  
9 license under AS 38.05.132;

10 (18) that portion of expenditures, that would otherwise be qualified  
11 capital expenditures, as defined in AS 43.55.023, incurred during a calendar year that  
12 are less than the product of \$0.30 multiplied by the total taxable production from each  
13 lease or property, in BTU equivalent barrels, during that calendar year, except that,  
14 when a portion of a calendar year is subject to this provision, the expenditures and  
15 volumes shall be prorated within that calendar year;

16 (19) costs incurred for repair, replacement, or deferred maintenance of  
17 a facility, a pipeline, a structure, or equipment, other than a well, that results in or is  
18 undertaken in response to a failure, problem, or event that results in an unscheduled  
19 interruption of, or reduction in the rate of, oil or gas production; or costs incurred for  
20 repair, replacement, or deferred maintenance of a facility, a pipeline, a structure, or  
21 equipment, other than a well, that is undertaken in response to, or is otherwise  
22 associated with, an unpermitted release of a hazardous substance or of gas; however,  
23 costs under this paragraph that would otherwise constitute lease expenditures under (a)  
24 and (b) of this section may be treated as lease expenditures if the department  
25 determines that the repair or replacement is solely necessitated by an act of war, by an  
26 unanticipated grave natural disaster or other natural phenomenon of an exceptional,  
27 inevitable, and irresistible character, the effects of which could not have been  
28 prevented or avoided by the exercise of due care or foresight, or by an intentional or  
29 negligent act or omission of a third party, other than a party or its agents in privity of  
30 contract with, or employed by, the producer or an operator acting for the producer, but  
31 only if the producer or operator, as applicable, exercised due care in operating and

1 maintaining the facility, pipeline, structure, or equipment, and took reasonable  
2 precautions against the act or omission of the third party and against the consequences  
3 of the act or omission; in this paragraph,

4 (A) "costs incurred for repair, replacement, or deferred  
5 maintenance of a facility, a pipeline, a structure, or equipment" includes costs  
6 to dismantle and remove the facility, pipeline, structure, or equipment that is  
7 being replaced;

8 (B) "hazardous substance" has the meaning given in  
9 AS 46.03.826;

10 (C) "replacement" includes renovation or improvement;

11 (20) costs incurred to construct, acquire, or operate a refinery or crude  
12 oil topping plant, regardless of whether the products of the refinery or topping plant  
13 are used in oil or gas exploration, development, or production operations; however, if  
14 a producer owns a refinery or crude oil topping plant that is located on or near the  
15 premises of the producer's lease or property in the state and that processes the  
16 producer's oil produced from that lease or property into a product that the producer  
17 uses in the operation of the lease or property in drilling for or producing oil or gas, the  
18 producer's lease expenditures include the amount calculated by subtracting from the  
19 fair market value of the product used the prevailing value, as determined under  
20 AS 43.55.020(f), of the oil that is processed;

21 (21) costs of lobbying, public relations, public relations advertising, or  
22 policy advocacy.

23 \* **Sec. 54.** AS 43.55.900(10) is amended to read:

24 (10) "gas processing plant" means a facility that

25 (A) extracts and recovers liquid hydrocarbons from a gaseous  
26 mixture of hydrocarbons by gas processing; and

27 (B) is located upstream of the inlet of any pipeline  
28 transporting gas to a gas treatment plant and upstream of the inlet of any gas  
29 pipeline system transporting gas to a market;

30 \* **Sec. 55.** AS 43.55.900(20) is amended to read:

31 (20) "point of production" means

1 (A) for oil, the automatic custody transfer meter or device  
 2 through which the oil enters into the facilities of a carrier pipeline or other  
 3 transportation carrier in a condition of pipeline quality; in the absence of an  
 4 automatic custody transfer meter or device, "point of production" means the  
 5 mechanism or device to measure the quantity of oil that has been approved by  
 6 the department for that purpose, through which the oil is tendered and accepted  
 7 in a condition of pipeline quality into the facilities of a carrier pipeline or other  
 8 transportation carrier or into a field topping plant;

9 (B) for gas [, OTHER THAN GAS DESCRIBED IN (C) OF  
 10 THIS PARAGRAPH,] that is

 31 PROCESSING IS COMPLETED OR WHERE GAS TREATMENT BEGINS,

2       \* **Sec. 56.** AS 43.55.900 is amended by adding a new paragraph to read:

3                   (25) "gas treatment plant" means a facility that performs gas treatment,  
4                   regardless of whether the facility also performs gas processing.

5       \* **Sec. 57.** AS 43.90.900(18) is amended to read:

17                  REQUESTING THE GOVERNOR TO ESTABLISH AN INTERIM ADVISORY  
18       BOARD. The legislature requests the governor to establish an interim advisory board under  
19       AS 44.19.028 to advise the governor on municipal involvement in a North Slope natural gas  
20       project. Members of the advisory board may include representatives of municipalities, the  
21       commissioner of natural resources, the commissioner of revenue, representatives of oil and  
22       gas and gas only lessees on the North Slope, and representatives of other persons expected to  
23       be directly involved in the development of a North Slope natural gas project. In this section,

1 Development Corporation, the Alaska Industrial Development and Export Authority, and the  
2 Department of Revenue, shall develop a plan for developing infrastructure to deliver more  
3 affordable energy to areas of the state that are not expected to have direct access to a North  
4 Slope natural gas pipeline. The plan must identify ownership options, different energy  
5 sources, including fossil fuels, hydro projects, tidal, and other alternative energy sources, and  
6 describe and recommend the means for generating, delivering, receiving, and storing energy  
7 in the most cost-efficient manner. The Alaska Energy Authority may consider the  
8 development of regional energy systems that can receive and store bulk fuel in quantity and  
9 distribute that fuel as needed within the region.

10 (b) The Alaska Energy Authority, in consultation with the Department of Revenue,  
11 shall recommend a plan for funding the design, development, and construction of the required  
12 infrastructure and may identify a source of rent, royalty, income, or tax received by the state  
13 that may be appropriated by the legislature to implement the plan.

14 (c) The Alaska Energy Authority shall provide the plan and suggested legislation for  
15 the design, development, construction, and financing of the required infrastructure to the  
16 legislature before January 1, 2017.

18 read:

19 DEVELOPMENT OF A PLAN FOR MUNICIPALITIES, REGIONAL  
20 CORPORATIONS, AND RESIDENTS TO PARTICIPATE IN THE OWNERSHIP OF A  
21 NORTH SLOPE NATURAL GAS PIPELINE. (a) At the time the commissioner of natural  
22 resources submits the first agreement or contract to the legislature for approval under  
23 AS 38.05.020(b)(11), enacted by sec. 15 of this Act, the commissioner of revenue shall  
24 present a plan and suggested legislation to allow a municipality, regional corporation, or  
25 resident of the state to participate as a co-owner in a North Slope natural gas pipeline. The  
26 plan must include the recommendations of the commissioner as to

27 (1) the means by which a municipality, regional corporation, or resident may  
28 invest in the North Slope natural gas pipeline; for a resident, the means may include providing  
29 an option to designate an amount of a permanent fund dividend to be deducted for the  
30 investment;

31 (2) whether the ownership interest in a North Slope natural gas pipeline should

1 be acquired from the portion of a North Slope natural gas pipeline acquired by the state,  
2 through the purchase of stock in a publicly traded corporation that invests in a North Slope  
3 natural gas pipeline, or some other means;

4 (3) the means for providing notice to a municipality, regional corporation, or  
5 resident receiving an ownership interest that explains the type of ownership interest and the  
6 rights and obligations related to that ownership interest;

7 (4) whether the ownership interest received by a municipality, regional  
8 corporation, or resident may be transferred or assigned to another person and the means for  
9 transferring the interest;

10 (5) the means by which the proportional share of a dividend or other income  
11 may be distributed to a municipality, regional corporation, resident, or transferee of an interest  
12 if the municipality, regional corporation, or resident receives an ownership interest acquired  
13 by the state in a North Slope natural gas pipeline and the state receives a dividend or other  
14 income from its ownership interest, and whether the payment should be subject to interest if  
15 not timely distributed;

16 (6) the means by which the commissioner may identify a publicly traded  
17 corporation that has an ownership interest in a North Slope natural gas pipeline that is subject  
18 to investment by a municipality, regional corporation, or a resident under the proposed plan;  
19 and

20 (7) the means by which an individual may qualify as a resident for purposes of  
21 investing in an ownership interest.

22 (b) In this section,

23 (1) "North Slope natural gas pipeline" means a natural gas pipeline project that  
24 transports natural gas produced in the state north of 68 degrees North latitude to a market in  
25 the state or to tidewater for export from the state including a facility in the state for liquefying  
26 natural gas for transport;

27 (2) "regional corporation" means a regional corporation organized under 43  
28 U.S.C. 1606(a) as amended.
