Dear Senate State Affairs Committee,

Thank you for considering the "Silver Alert" Bill. This bill is important to everyone. As we age memory becomes more difficult for most of us. If we have a lapse of memory and cannot find our way home, this bill would indeed be a help to those looking for us and maybe save our lives.

A few years ago a very fine lady (in Fairbanks) had difficulty finding her way and was not found in time. Her car was found and her body but too late. With "Silver Alert" possibly she would have been found. For your parents, even yourselves, please pass this bill.

Thank you,

Barbara Rich, President Alaska Retired Educators Association
