FISCAL NOTE ANALYSIS

STATE OF ALASKA 2014 LEGISLATIVE SESSION

BILL NO.	SB193

Analysis

SB 193 would require all construction contractors to obtain a license through the elimination of the "handyman" exemption. SB 193 also increases the amount of the bond for general, specialty, and mechanical contractors, creates a new category of bonding for residential contractors at \$20,000, requires "handymen" who do work valued under \$10,000 to post a \$5,000 bond, and amends insurance requirements so that any contractor who does work valued at \$2,500 or less is not required to obtain liability and property insurance.
An indeterminate fiscal note is assigned to SB 193 as the division is unable to quantify how many "handymen" might apply for a construction contractor's license. "Handyman" business activity is not distinguishable from licensed construction or services lines of business. Without an estimated number of potential "handymen" needing to be newly licensed, the division is unable to determine revenue and cost impacts associated with SB 193.
