FISCAL NOTE ANALYSIS

STATE OF ALASKA
2014 LEGISLATIVE SESSION

BILL NO. HB360

Analysis

This legislation would ban smoking on Fairbanks International Airport and on Ted Stevens Anchorage International Airport property to include buildings and outdoor spaces. The legislation specifically states "airports" which does not distinguish between the airport terminal and outdoor space.

Title 17 currently prohibits smoking within 50 ft of an aircraft on airport property. The international airports follow municipal codes prohibiting smoking in public buildings and displays signage and has periodic public address system announcements in the terminals.

Currently smokers are provided with a designated outside smoking area adjacent to the terminals but away from any building entrances. A smoking room equipped with ventilation is provided in the North Terminal of the Ted Stevens Anchorage International Airport for passengers that deplane and cannot leave the terminal secure area before re-boarding their through-flight (some international flights and military charters).

With the passage of this legislation, the airport will be required to discontinue providing smokers a designated outdoor smoking area, discontinue the use of the north terminal smoking room, remove current no-smoking signage and replace with new signs at the terminal and numerous other state managed buildings and display signs outdoors in highly visible locations.

Total 150 stand-alone 18" x 24" signs (\$215/sign and post)

Ted Stevens Anchorage International Airport	100 signs	\$21.5
Fairbanks International Airport	50 signs	\$10.8
Total one time cost	150 signs	\$32.3
Cost per year to replace stolen/damage/worn signs	15 signs	\$3.2
