Subject: HB161

Senator Micciche and others;

Please register my opposition to HB 161. I ask you to please stop this bill. I will keep this letter short, I am sure you have heard lots of reasons to oppose this bill already so I will let others speak for me. One argument against this bill I have not heard though, is that it smacks of SELLING big game. Market hunting was outlawed long ago and if I were to personally attempt to sell (or even give away, without the correct paper work) any big game (meat or other wise) I would be severely penalized.

PLEASE do not consider allowing this bill to proceed.

Thank you
