Rep. K. Olson

I just wanted to express my support of HB 116 currently being held in your committee. I cannot express the importance of supporting veterans and their families. Veterans are often behind (in age) of their coworkers due to the service they committed for this country. Allowing them to “catchup” by purchasing military service is a great idea. I hope you are able to pass this bill out of your committee and get it passes as law. Thanks for supporting our US service men and women.
