BILL # or SUBJECT: SB 21

COMMITTEE & DATE: SFIN

Thank you for taking my comments!
Vote No on SB 21!

The resources of Alaska belong to her people. They don't belong to giant corporations or government officials or lobbyists.

The oil pays for our schools, our infrastructure, our policemen & firefighters, our health services, etc. Giving our oil wealth resource away without any attachments or guarantees of anything is a terrible business decision. I cannot understand how one could call themselves fiscally conservative & still vote for this bill.

Please side with Alaskans on this one. Vote No on SB 21! Thank you!
