ADD:

\$500,000 general funds (1004)

EXPLANATION:

The Governor's budget included a \$500,000 language appropriation to the Department of Commerce, Community, and Economic Development. The department would have transferred the funds to the Department of Administration as a payment on behalf of political subdivisions for the Alaska Land Mobile Radio system under a cost allocation methodology adopted by the Department of Administration.

This amendment retains the original purpose of the funding without the unnecessary transfer between departments.

EXPLANATION:

This reduction of \$485,800 is $1/16^{th}$ of ASMI's unrestricted general fund appropriation, the same percentage general fund reduction that was assessed to tourism marketing. With the approval of this amendment, the Alaska Learning Network (AKLN) (\$1.1 million) and Statewide Technology Rollout (\$3.9 million) will not be funded.

FY14 OPERATING BUDGET AMENDMENT

OFFERED IN:

The House Finance Committee

TO:

CSHB 65(FIN), Draft Version "C"

OFFERED BY:

Reps. Muñoz and Austerman

DEPARTMENT:

Department of Environmental Conservation

APPROPRIATION:

Spill Prevention and Response

ADD:

It is the intent of the legislature that the Department of Environmental Conservation provide recommendations to the legislature on or before the start of the second session of the Twenty-eighth Alaska State Legislature, January 21, 2014, that identify ways to manage the oil and hazardous substance release prevention and response fund as a viable, long-term funding source for the state's core spill prevention and response initiatives. The plan should include an analysis of prior expenditures from the fund for the remediation of state-owned contaminated sites and a proposal to expeditiously remediate state owned contaminated sites.

EXPLANATION:

The Department of Environmental Conservation has noted in its detail budget submission that managing the oil and hazardous substance release prevention and response fund as a viable, long-term funding source for the state's core spill prevention and response initiatives is critical, according to the Legislative Finance Division.

Agency projections show that revenues collected from the four-cent per barrel conservation surcharge are not adequate to fund spill prevention and response programs. The surcharge revenue is the primary funding source for the prevention account and that revenue is not sufficient to sustain Alaska's core spill prevention and response program over the long term.

Beginning in Fiscal Year 2015, annual funding available from this account will be at least \$5 million less than will be required to continue the current level of service. Members of the House Finance Department of Environmental Conservation Budget Subcommittee expressed an interest in working with the administration to find a way to address this shortfall. This intent language encourages the agency to do so.

The agency is working on ways to post on-line more information about its activities. This intent language encourages the department to continue doing so in regards to its cruise ship program.

OFFERED BY:

Rep. Muñoz

DEPARTMENT:

Department of Fish and Game

APPROPRIATION:

Commercial Fisheries

ALLOCATION:

Southeast Region Fisheries Management

ADD:

\$550,000 General Fund (1004)

EXPLANATION:

This funding is to help the Division of Commercial Fisheries:

- Continue salmon stock identification projects known as port sampling programs to
 evaluate salmon stocks in commercial net and troll fisheries. Funding is needed to replace
 support that is set to expire under federal Alaska sustainable salmon fisheries grants. The
 Department of Fish and Game requested state funds for this to replace a loss of federal
 Pacific Salmon Treaty monies.
- 2. Genetic stock identification for sockeye salmon.
- 3. Chinook biometric analyses in support of U.S. and Canadian Pacific Salmon Treaty negotiators.

This increment may also be used in support of aerial surveys of salmon streams in Yakutat and Southeast Alaska. A reduction of federal funds is putting this program at risk.

Without this funding, the Southeast port sampling program will cease to exist after July 1, 2013. Port samplers collect vital data that are used to implement sustainable salmon fisheries throughout the region and help prove that Alaska is meeting obligations under the Pacific Salmon Treaty.

Commercial fishing groups are concerned that without the information from port sampling – as well as genetic stock identification, Chinook biometric analyses, and aerial surveys – they will face reduced fishing opportunities and that insufficient funding for the department will hurt its ability to manage salmon fisheries in Southeast Alaska.

\$2,918,700 General Funds 1004

LANGUAGE

AMEND Sec. 17, DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS, by adding a new subsection to read:

(b) If the Alaska Aerospace Corporation does not secure a multi-year commercial launch service contract for the Kodiak Launch Complex on or before June 30, 2013, the appropriation from the general fund to the Alaska Aerospace Corporation, Alaska Aerospace Corporation allocation in sec. 1 of this Act shall be reduced by \$3,000,000.

INSERT a new bill section to read:

Sec. --. CONTINGENT EFFECT. The appropriation made in sec. 17(b) of this Act is contingent as set out in sec. 17(b) of this Act.

EXPLANATION:

In FY13 the State of Alaska provided a one-time increment of \$8.0 million GF. It was the State's understanding that Alaska Aerospace Corporation [AAC] would not become wholly dependent on the State to provide funding for operations and maintenance. The State understands that AAC has potential contracts that will be fulfilled in FY14. To that end, the legislature will provide funding in FY14 to AAC to allow AAC to secure a contract by June 30, 2013. If no multi-year commercial launch service contract is secured by that date, funding will be reduced by \$3.0 million.

DELETE:

\$36,000,000 University of Alaska Restricted Receipts (1048)

EXPLANATION:

This amendment would reduce unrealized University of Alaska Restricted Receipts, Fund Code 1048 (Designated General Funds), by \$36,000,000 to an amount that comes closer to reflecting how much the University of Alaska raises in tuition, fees, and other sources.

Previous University budgets have included significant receipt authority that is unrealizable, according to discussions with University officials and members of the House Finance University of Alaska Budget Subcommittee. This over-authorization for "hollow receipts" creates the appearance that the University has more funding than what it can generate.

For example, in Fiscal Year 2012, the legislature authorized nearly \$314.1 million in University receipts. The University ended that fiscal year generating almost \$272.4 million – a difference of roughly \$41.7 million.

This \$36,000,000 amendment neither reduces revenue to the University nor affects spending in Fiscal Year 2014. It is a technical adjustment to provide more accurate receipt information for this Designated General Fund source.

This section has an effective date of July 1, 2013.

EXPLANATION:

The University of Alaska Center for Mine Training at the Juneau Campus was created in June 2011 after Hecla Greens Creek donated \$300,000 to the program. It is becoming an internationally recognized center for training miners with state-of-the-art training aids, faculty, and facilities.

It works in cooperation with the University of Alaska Mining and Petroleum Training Service to provide Mine Safety and Health Administration training, such as entry-level mining classes, that lead to good-paying jobs in Alaska mines.

The \$117,800 request is for the center's training director who also serves as an assistant professor who teaches courses supported by the Hecla Greens Creek donation as part of the Hecla Greens Creek Mining Training Career Pathway. The director teaches two statewide introductory courses that serve as the first steps in a pathway that leads to a career in mining. Students then enter a UA Mine Mechanics Occupational Endorsement and Power Technology Associates of Applied Sciences certificate programs with an emphasis in diesel mechanics – all funded by the Hecla Greens Creek donation. The director also operates a mine simulator and represents the UA mine training program locally, regionally, across the state, nationally, and internationally.

This program creates jobs in Southeast Alaska. By putting this appropriation in the language section, it assures that this program will be funded.

Economic Development

ADD:

If a Qualified Trade Association (QTA) collects \$2 million of additional matching funds not currently in the budget by July 1, 2013 then the unexpended and unobligated balance of the FY14 appropriation for Tourism Marketing Funding, not to exceed \$13 million, is reappropriated to the QTA as a grant for a tourism marketing program approved by the

Department.

EXPLANATION: This conditional language allows a Qualified Trade Association (QTA), such as the Alaska Travel Industry Association, the opportunity to receive state funding set aside for tourism marketing, provided that the QTA is able to raise additional funds from the travel industry. If this occurs, \$13 million of the \$15 million appropriated to the Department of Commerce, Community and Economic Development for Tourism

Marketing Funding will be reappropriated to the QTA.
