FISCAL NOTE ANALYSIS #7

STATE OF ALASKA
2013 LEGISLATIVE SESSION

BILL NO. CSSB 21(FIN)

Analysis

The bill establishes a nine member Oil and Gas Competitiveness Review Board, in the Department of Revenue, which is charged with establishing and maintaining a salient collection of information related to oil and gas exploration, development, and production in the state and related to tax structures, rates, and credits in other regions with oil and gas resources; evaluating and suggesting changes to state laws and regulations reviewing historical, current, and potential levels of investment in the state's oil and gas sector; identifying factors that affect investment in oil and gas exploration, development, and production in the state, including tax structure, rates, and credits; royalty requirements; infrastructure; workforce availability; and regulatory requirements; reviewing the competitive position of the state to attract and maintain investment in the oil and gas sector in the state as compared to the competitive position of other regions with oil and gas resources. The Board is required to meet once per year to provide a report by December 1 of each year regarding means for increasing the state's ability to attract and maintain investment in, and development of, the state's oil and gas resources.

To accomplish these tasks the Department would use existing professional staff, primarily the Oil and Gas Program Coordinator currently in the Commissioner's Office, and funding to provide board meeting and travel, space and overhead costs associated with the data room.

The fiscal note assumes one board meeting per year.
