Commissioner Daniel Sullivan  
Alaska Department of Natural Resources  
550 West 7<sup>th</sup> Avenue; Suite 1400  
Anchorage, AK 99501-3554

Dear Commissioner Sullivan:

Linc Energy Operations, Inc. (Linc) is actively working to progress its oil and gas development projects in the Cook Inlet and on the North Slope. For this reason, Linc supports the Parnell Administration's efforts to improve the permitting process while at the same time, maintaining the state's high environmental standards. A more efficient permitting process will play a critical role in lowering costs, attracting investment and, ultimately, increasing oil and gas production in the Cook Inlet and on the North Slope.

Currently, projects are often delayed while waiting to receive authorizations from DNR on their Plans of Operations, Exploration or Development. Linc was pleased to see that the Parnell Administration introduced SB 59, which will improve the DNR permitting process by consolidating DNR's exploration and development approvals. Our assessment of the bill is that SB 59's changes will likely reduce the permitting process timeline by months; and, over the life of a project, this could help move projects more quickly from exploration and into development and production. In the end, this type of efficient and well organized approach benefits all Alaskans, as more production will be brought on line without reducing environmental standards or saddling projects with unnecessary and costly delays.

Linc appreciates your willingness to identify ways to improve the permitting process and believes SB 59's changes could have a material impact on Linc's ability to timely develop its Alaska assets.

Sincerely,

A handwritten signature in blue ink, appearing to read "Corri A. Feige".

Corri A. Feige  
General Manager – Alaska
