FISCAL NOTE ANALYSIS #2

STATE OF ALASKA
2013 LEGISLATIVE SESSION

BILL NO. HB 78

Analysis

This bill provides the Department of Natural Resources (DNR), in coordination with the Department of Environmental Conservation (DEC), the authority to take actions necessary to administer and enforce any dredge and fill permitting program allowed under 33 U.S.C. 1344 (sec. 404, Clean Water Act).

FY 14

Personal Services - DNR will receive interagency receipts from DEC to fund positions needed to assist DEC in its analysis of state assumption of the CWA Section 404 ("404 program"). The Office of Project Management and Permitting will require 2 new positions: one project coordinator to participate with DEC in the program development tasks, including the analysis of the division of duties between agencies under primacy and development of a mitigation program required of State programs; and one position for State program capacity development in wetlands jurisdictional determinations and permitting procedures. Capacity development will allow DNR to pursue development and administration of regional general permits for some classes of activities, resulting in more state control over 404 permitting during the interim period before the state obtains 404 primacy.

One Project Coordinator (Anchorage, XE, Range 23C) \$134,298

One Natural Resource Specialist III (Anchorage, GG, Range 18C) \$97,108

Travel - Travel costs will be incurred for attending DEC work group and stakeholder meetings, meetings with EPA Region 10 and US Army Corps of Engineers Headquarters staff, and for staff training opportunities.

Services - Contractual costs will be incurred for hiring consultants to assist the state in designing regional general permits and other capacity building. The intent of this capacity building will be to improve the efficiency of 404 permitting in Alaska even prior to the state obtaining 404 primacy.

Commodities - Position support costs, including furniture and computers (one-time costs for new positions); standard office supplies.

FY 15

Personal Services - DNR will receive interagency receipts from DEC to fund positions needed to assist DEC in state assumption of the CWA Section 404 ("404 program"). The Office of Project Management and Permitting will require two additional positions to assist in State program capacity development in permitting procedures. The Project Coordinator will continue to help in the program development tasks, including development of a mitigation program required of State programs.

Two positions established in FY2014

Two Natural Resource Specialist III (Anchorage, GG, Range 18C) \$97,108 each

Travel - Travel costs will be incurred for attending DEC work group and stakeholder meetings, meetings with EPA Region 10 and US Army Corps of Engineers Headquarters staff, and for staff training opportunities.

Services - Contractual costs will be incurred for hiring consultants to assist the state in designing regional general permits and other capacity building.

Commodities - Position support costs, including furniture and computers (one-time costs for new positions); standard office supplies.

Associated Regulations: DNR does not anticipate any regulation changes to our department's regulations at this time. However, as the evaluation of the 404 primacy program develops, we may identify changes to DNR regulations in future years.
