STUDENT BASED FORMULA

District Adjusted Average Daily Membership (ADM)

Step 1. Adjust: ADM for School Size

Step 2. Apply: District Cost Factor

Step 3. Apply: Special Needs Factor

Step 4. Add: Intensive Services Count

Step 5. Add: Correspondence Student Counts

= District Adjusted (ADM)

ADM Reporting Requirements

ADM – is the average number of enrolled students during the 20-school day count period. The 20-school day count ends the fourth Friday of October. Reports are due within two weeks after the end of the 20-school day count period.

School Size Adjustment [Step 1]

For each school in the district subtract from the ADM **all** correspondence counts. Adjust the remaining ADM of each school using the school size factor table.

- 1. A community with an ADM under 10: Added to the smallest school with an ADM greater than 10.
- 2. A community with an ADM from 10 100: Grades K-12 ADM combined and adjusted once, adjusted as one school.
- 3. A community with an ADM from 101 425: ADM for grades K-6 and 7-12 are adjusted separately; adjusted as two schools.
- 4. A community with an ADM greater than 425: Each facility administered as one school, counted as one school, ADM is adjusted as one school.
- * <u>Alternative</u> school with an ADM of 175 or greater *and* administered as a separate facility the ADM will be adjusted separately, <u>unless</u>:
 - A. It's new and the 1st year of service with ADM between 120 to 175 receives an adjustment of 1.33; OR
 - B. It had an ADM of 175 or greater in the prior year but drops below 175 in the current fiscal year receives an adjustment of 1.33; OR
 - C. It has an ADM of less than 175 shall be counted as a part of the school in the district with the *highest* ADM.
- * <u>Charter</u> school with an ADM of 150 or greater is adjusted as a separate facility unless:
 - A. It's new and the 1st year of service with ADM between 120 to 150 receives an adjustment of 1.38; OR
 - B. It had an ADM of 150 or greater in the prior year but drops below in the current fiscal year receives an adjustment of 1.38; OR
 - C. It continues to stay below 150 ADM then it receives an adjustment of 1.18.

Select the appropriate formula from the school size factor table to calculate the adjusted ADM for each school.

School Size Table

Reference:	School Size:	Formula:
1.	10-19.99	39.60
2.	20-29.99	39.60 + (1.62 * (ADM - 20))
3.	30-74.99	55.80 + (1.49 * (ADM - 30))
4.	75-149.99	122.85 + (1.27 * (ADM - 75))
5.	150-249.99	218.10 + (1.08 * (ADM - 150))
6.	250-399.99	326.10 + (.97 * (ADM - 250))
7.	400-749.99	471.60 + (.92 * (ADM - 400))
8.	Over 750	793.60 + (.84 * (ADM - 750))

Correspondence student counts are not adjusted for size (see step 5).

Hold Harmless [Step 1a]

House Bill 273 established a Hold Harmless [HH] provision for those districts experiencing a reduction in enrollment. To determine eligibility for this provision the district's sum total of the adjusted ADM for school size is compared against the prior fiscal year [FY] to see if a decrease of five percent or greater has occurred. The HH provision is available to eligible districts for up to three years provided the total school size adjusted ADM continues to stay below the base year. The district uses the fiscal year before the decrease as a base fiscal year to offset the decrease, according to the following method:

- > 75% of the school size adjusted ADM difference between the current FY and the base FY.
- > 50% of the school size adjusted ADM difference between the second FY and the base FY.
- ➤ 25% of the school size adjusted ADM difference between the third FY and the base FY.

District Cost Factors [Step 2]

- Cost factors are specific to each school district.
- With the implementation of ISER in HB273, district cost factors will range from 1.000 to 2.116. [FY10 = 62.5% ISER with 12.5% added each subsequent year for four years.]
- The department monitors the district cost factors and submits a report to the legislature on January 15 every other fiscal year, beginning in FY01.

The district's school size adjusted ADM is multiplied by the district cost factor.

Special Needs Funding [Step 3]

Vocational education, special education (except intensive special education), gifted/talented education, and bilingual/bicultural education are block funded. A district must file a plan with the department indicating the special needs services that will be provided, AS 14.17.420 (b), to qualify for special needs funding.

The districts' previously adjusted ADM is now multiplied by the Special Needs factor of 1.20.

Vocational & Technical Funding [Step 4]

(Now referred to as Career & Technical Education or CTE)

These funds are intended to assist districts in providing vocational and technical instruction for students enrolled in grades seven through 12. This excludes costs associated with administrative expenses; and instruction in general literacy, math, and job readiness skills, AS 14.17.420(a)(3). (*Enacted in 2011*)

The districts' previously adjusted ADM is now multiplied by the Career & Technical Education factor of 1.015.

Intensive Services Funding [Step 5]

A school district receives funding for intensive special education students that:

- Are receiving intensive services, and;
- Are enrolled on the last day of the 20 school day count period, and;
- Have an established Individual Education Plan (IEP).

The districts intensive student count is multiplied by 13.

The district's intensive count is added to the previously adjusted ADM.

Correspondence Programs [Step 6]

Funding for correspondence programs is calculated by multiplying the correspondence ADM by 80%.

The district's correspondence count is now added to the previously adjusted ADM to arrive at the Final Adjusted ADM.

Basic Need

Multiply the district Final Adjusted ADM by the Base Student Allocation [BSA] to determine Basic Need. The BSA is \$5,680 for FY13.

PUBLIC SCHOOL FUNDING ELEMENTS

The components of Public School Funding are *State Aid*, *Required Local Contribution*, and *Title VIII Impact Aid*.

Required Local Contribution

The local requirement is the equivalent of a 2.65 mill tax levy on the full and true value of the taxable real and personal property in the district; and not to exceed 45% of the district's basic need for the preceding fiscal year.

Title VIII Impact Aid

Federal Impact Aid provides funds to school districts for children of parents living and/or working on federal property "in-lieu of local tax revenues." 90% of the eligible funds are used in the calculation of state aid.

State Aid Entitlement

Basic Need minus a required local contribution minus 90% eligible Federal Impact Aid plus the amount of funding 'Floor' plus Quality School Grants equals State Aid Entitlement.

ADDITIONAL FUNDS ABOVE BASIC NEED

Maximum Local Contribution

The City or Borough can contribute more than is required but may not exceed the maximum local contribution. To calculate this use the required local contribution plus 23% of basic need **or** a 2-mill equivalent of the full and true value of the taxable and real property within the district, whichever is *greater*. The additional amount is added to the required local effort to reach the maximum local contribution.

For Example:

Nome's: 23% of Basic Need = \$2,181,740 <u>OR</u>

.002 of Full & True Value = \$653,879

RESULT:

Required Local Effort: \$866,390

Additional Local Contribution: +\$2,181,740 [23% of Basic Need]

Maximum Local Contribution: \$3,048,130

Quality School Grants

The district's adjusted ADM multiplied by \$16 generates the amount the school district is eligible to receive.

Example: Nome Public Schools	9	<u>Column</u>

HB273 & Formula Changes

In addition to the hold harmless provision that was implemented, HB273, enacted in 2008, changed three other components of the formula over a period of five years.

Fiscal Year	District Cost Factor	Intensive Multiplier	Base Student Allocation
FY2009	50% of ISER	x 9	\$5,480
FY2010	62.5% of ISER	x 11	\$5,580
FY2011	75% of ISER	x 13	\$5,680
FY2012	87.5% of ISER		
FY2013	100% ISER		

Area Cost Differential Table		<u>FY10</u>	<u>FY11</u>	<u>FY12</u>	<u>FY13</u>
	Educa	ation Task	Force Dist	rict Cost F	actors
	50%	62.50%	75.0%	87.50%	100%
