4 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 **WHEREAS** Operation Arctic Shield has shown an increasing need for Coast Guard
6 presence in the remote Arctic region; and

7 **WHEREAS** the Bertholf, the first of a new class of cutter called the National Security
8 Cutter, with exceptional endurance, operational, and command and control capabilities, has
9 twice patrolled the Arctic; and

10 **WHEREAS** the harsh environment, limited infrastructure, and logistics pose unique
11 challenges when conducting operations in the Arctic; and

12 **WHEREAS** National Security Cutters like the Bertholf are designed to conduct
13 operations from South America to the Bering Sea, where their unmatched combination of
14 range, speed, and ability to operate in extreme weather provides the mission flexibility to
15 conduct homeland security, domestic fisheries protection, search and rescue, and other

missions at great distances from shore; and

WHEREAS the Coast Guard is the nation's leading federal agency for ensuring maritime safety, security, and stewardship in the Arctic, and the Coast Guard is responsible for conducting statutory missions in the Arctic to ensure the region remains safe and secure; and

WHEREAS the only Coast Guard high and medium-endurance cutters in the state, the Haley and Munro, are both over 40 years old and have not been scheduled for replacement; and

WHEREAS the National Security Cutter acquisition program calls for the delivery of eight National Security Cutters to replace the nation's 12 high-endurance cutters; and

WHEREAS, to date, only three vessels have been delivered to the Coast Guard, with a fourth vessel under construction and a contract for the fifth awarded on September 9, 2011, and the President's current budget request includes funding for a sixth; and

WHEREAS these ships are critical for the Coast Guard to execute its high seas mission;

BE IT RESOLVED that the Alaska State Legislature urges the United States Congress and the President of the United States to complete the program of record for the funding and acquisition of the three additional National Security Cutters and to home port one of the cutters in Kodiak, Alaska.
