Subject: Health Insurance Information

Erick,

Theresa Keel, Superintendent of Schools for the Cordova School District, requested that I send you the health insurance information for our district per your request.

- Our district is not self-insured but participated in the NEA trust (Plan A with a \$100 individual and \$300 family deductible).
- Average monthly health insurance premium for a full-time employee is \$1,712.
- The individual deductible is \$100 and the family deductible is \$300 for NEA plan A. We gave our employees the option of a plan with \$1,000 individual deductible at no cost to the employee but did not have any employees interested in the plan.
- The district pays 92% of the monthly premium.

Please let me know if you have any further questions.
