10 (b) To qualify for a loan under the program established in (a) of this section,

(3) provide the homeowner with an estimate of the cost savings and change in energy efficiency of the home as a result of improving or replacing the primary heating system of the home.

(c) Under this section, a home is eligible if the corporation determines it is a substantially complete, owner-occupied, single-family dwelling or duplex used as a permanent residence by the loan applicant and is located in the state. A home is not eligible if

(d) A loan made under this program

(1) shall have an interest rate of one percent;

(2) shall be repaid over a term of 10 years;

(3) may not be subject to income limitations;

(4) may not exceed, for a home, the lesser of

(B) \$15,000.

(e) As a condition of the loan, a homeowner who receives a loan under this section shall agree, in writing, to improve or replace the heating system in accordance with applicable building and housing codes and obtain all required permits.

(f) The corporation shall use repayments of principal on a loan made under this section for the purposes of providing loans under this section or paying the

1 administrative costs related to providing loans under this section. Interest paid on
2 loans made under this section shall be deposited in the general fund and may be
3 appropriated for the loan program under this section or for any other public purpose.

4 (g) In making loans under this section, the corporation is exempt from the
5 requirements of AS 46.11.050(b).

6 (h) In this section, "building and housing codes" includes a law, ordinance, or
