

Dear Senator Giessel:

I am writing to support the confirmation of Kelly Vrem for another term as a member of the Big Game Commercial Services Board. I have attended and been an active participant in meetings of this board for many years. Never has it been so responsive and unbiased as it has been since Kelly has been a board member and then Chair. I serve as the (volunteer) head proctor for the practical portion of the testing of new guides and chair the committee to rewrite these portions of the test, and Kelly has been a strong source of encouragement in this undertaking. Kelly has shown himself able to act for the best interest of the industry he represents and the conservation of the resources we utilize, without personal bias or underlying motive. I am glad he decided he would like to serve another term, and urge you to move his confirmation through the Senate Resources Committee. Thank you for your time.

Sincerely,

Loren J. Karro
