The majority of these grants are federal grant programs. General categories of grants include those from the US Departments of Education, Health & Human Services, and Agriculture. Most of the federal funding is distributed as pass-through grants to the various school districts.

Comparison of department non-formula line items shows the majority of funding in the Grants line (rising from about \$189 million in FY06 to over \$207 million in FY15 Gov -- a 10% increase). In FY15 Gov, the Grants line comprises about 69% of the overall non-formula budget. According to the Department, over 90% of the Grants line is attributable to federal receipts.
