

Prince of Wales Island Petitions

Signatures collected by community volunteers and sent to the office of Rep. Kreiss-Tomkins for
submission to the Legislature

2/3/2015

FAXEDFax To
907-465-2652

I am opposed to DOT spraying Herbicides along our roadways on Prince of Wales Island, and support mechanical brush cutting instead.
By adding my signature below I agree with this statement.

Petition to PLEASE NOT spray herbicides on Prince of Wales Island in SE Alaska

Reasons:

Preservation of environment for subsistence fishing, hunting, and eatable vegetation

Economic importance of the tourist industry based upon a more pristine environment (primarily hunting and fishing)

Concern of local citizens for long-range effects on human life, especially children

Concern of local citizens for the wildlife, especially deer, bear, bees, birds, and all creatures of the waters

Ineffective value of herbicides: too much rain in this area; also, plants build immunity

Petition to PLEASE NOT spray herbicides on Prince of Wales Island in SE Alaska

(B)

Reasons:

Preservation of environment for subsistence fishing, hunting, and eatable vegetation

Economic importance of the tourist industry based upon a more pristine environment (primarily hunting and fishing)

Concern of local citizens for long-range effects on human life, especially children

Concern of local citizens for the wildlife, especially deer, bear, bees, birds, and all creatures of the waters

Ineffective value of herbicides: too much rain in this area; also, plants build immunity
