

To Whom It May Concern,

I do not support House Bill 40. The use of electronic cigarettes is not smoking, and should never be classified as such. By definition alone, smoke is created during combustion, and there is no combustion in said devices. A definition change as such has detrimental effect on technology that has the potential to save millions of lives. New research is daily released stating that electronic cigarettes are safer than traditional cigarettes, including the effects on bystanders.

Thank you,

To Whom It May Concern,

I do not support House Bill 40. The use of electronic cigarettes is not smoking, and should never be classified as such. By definition alone, smoke is created during combustion, and there is no combustion in said devices. A definition change as such has detrimental effect on technology that has the potential to save millions of lives. New research is daily released stating that electronic cigarettes are safer than traditional cigarettes, including the effects on bystanders.

To Whom It May Concern,

I do not support House Bill 40. The use of electronic cigarettes is not smoking, and should never be classified as such. By definition alone, smoke is created during combustion, and there is no combustion in said devices. A definition change as such has detrimental effect on technology that has the potential to save millions of lives. New research is daily released stating that electronic cigarettes are safer than traditional cigarettes, including the effects on bystanders.

Thank you,

Cordova, R.I.

Name Fairbanks, AK

City, State

To Whom it May Concern,

I do not support Senate Bill 1 in its current form. The inclusion of "electronic cigarettes" is negligent and factually inappropriate. The secondhand effect from vaporizers is negligible per "Peering Through the Mist", Drexel University.

Thank you,
