FISCAL NOTE ANALYSIS

STATE OF ALASKA 2015 LEGISLATIVE SESSION

BILL NO. SB074

Analysis

Section 2(a)(5) of the bill directs the Department to enhance Medicaid fraud prevention, detection and enforcement.

Fraud prevention starts with the provider enrollment process. Enhancements to the provider enrollment process include requiring all ordering, rendering or referring providers to be enrolled with the Medicaid program, including all home and community-based waiver and behavioral health rehabilitation providers. In addition to the enrollment requirement, all categories of providers will be assigned a risk level that will be used to determine levels of pre-enrollment screening. Enhancements to the screening process includes pre- and post-enrollment site visits for medium and high risk categories of providers, and requiring background checks as a condition of enrollment.

BILL NO. SB074

Analysis Continued

Section 3 of the bill directs the Department to create an optional Health Savings Account for Medicaid recipients. This bill also includes the requirement that the Health Savings Account program must include recipient cost-sharing. Cost sharing would have to comply with federally mandated limits, based on household income. Recipient may elect to have 10 percent of their annual permanent fund dividend put into the Health Savings Account. The program is also required to include consumer education.

Health Care Services anticipates an impact due to intensive account management requirements. The Department estimates that approximately 7,400 health savings accounts will need to be established, verified and accounted for on a weekly basis.
