

Region	Project Number	Title	Receipt Authority (FY16)	Type	FY17 Test Fish Increment	Comments
I	11117121	Ketchikan Salmon Test Fish	\$25.0	Revenue	\$200.0 Total for Southeast Salmon	Reinitiated in FY16 after long period of inactivity to offset budget cuts.
	11117122	Petersburg Salmon Test Fish	\$88.6	Assessment	"	These are purse seine test fisheries at Point Gardner and Point Kingsmill used to evaluate run strength of pink, and to a lesser extent chum, salmon returning to Central Southeast Alaska.
	11117123	Sitka Salmon Test Fish	\$25.0	Revenue	"	Reinitiated in FY16 after long period of inactivity to offset budget cuts.
	11117124	Juneau Salmon Test Fish	\$74.0	Assessment	"	This project has two componenets. The first is a purse seine test fishery on West Admiralty Island which tests pink salmon run strength to Northern Southeast inside spawning locations. Information from this test fishery is the primary data used to trigger, or not, common property seine fisheries in that area. The second component is a set gillnet test fishery for Chinook salmon in the Alsek River. This test fishery is included in the current Annex of the Pacific Salmon Treaty and is used to develop relationship between current year return strength versus historical data.
	11117176	Sitka Herring Test Fish	\$20.0	Assessment	-	This project supports herring management and stock assessment activities for Sitka Sound herring, by far the largest and most valuable (speaking commercially and subsistence wise) in Southeast Alaska.
	11117187	SE Groundfish Test Fish	\$399.2	Assessment	\$50.0	This project supports management and stock assessment activities for ground fish fisheries in Southeast Alaska. Fisheries most supported by this project include Chatham Strait and Clarence Strait sablefish fisheries. This test fish increment will offset \$60.0 GF cut in FY17 request.
	11117193	Shellfish Test Fish	\$20.0	Assessment		This project supports pot shrimp stock assessment in Southeast Alaska.
Total			\$651.8		\$250.0

11127357	Fishery Monitoring Upper Cook Inlet	\$51.2	Assessment	\$75.0	This project supports management and stock assessment activities for Upper Cook Inlet salmon and also supports a technician that is part of the off shore test fishery crew to collect and record age, genetics and CPUE information.
11120358	Upper Cook Inlet Offshort Test Fishing	\$0.0	Assessment	"	Currently GF (\$71.3) but included in Governor's budget as cut. Cut to be offset by increased test fish revenue. This fishery conducted at furthest south line (Anchor Point) in Upper Cook Inlet.
11127417	Bristol Bay Test Fish: Sub-projects include Kvichak, Egegik, Ugashik inriver, marine waters terminal, and Port Moller.	\$287.4	Assessment/Revenue	\$200.0	Reinitiated in FY16 after long period of inactivity to offset budget cuts. Revenue from this project currently comes from three inriver test fish projects and test fisheries in terminal marine waters. Revenue supports ~80% of the Port Moller Test Fish project and will fund mixed stock fishery sampling and GSI analysis for Bristol Bay sockeye run reconstruction work. It has also supported office staff when GF funds were lacking and a technician that specifically goes out on fishing boats that conduct either test fishing or cost recovery.
11120428	Port Moller Test Fish	\$0.0	Assessment		Currently GF (\$44.7) but may be cut and offset by increased test fish revenue. This project provides inseason run assessment data for Bristol Bay sockeye salmon.
11127454	Post-season herring test fish	\$34.5	Revenue		This budget is used to support the Togiak herring fishery management. Was part of FY16 GF cut to herring assessment.
11127459	Togiak Herring test fish	\$11.3	Revenue		This budget is used to support the Togiak herring fishery management.
New	Prince William Sound Salmon		Revenue	\$100.0	Revenue from this project will likely support pink and chum Management staff are considering fishery parameters at this time.
Total		\$384.4		\$375.0	

III

11137549	Kuskowkwim (Bethel) Test Fish	\$2.0	Assessment	-	Daily inseason assessment of Kuskowkwim River relative salmon run strength and timing is available from Bethel Test fisher which is operated at river mile 80 near the midpoint of District 1.
11137568	Yukon River (Pilot Station) Test Fish Summer Season	\$7.6	Assessment	-	In order to monitor and manage the Yukon Area salmon fisheries, ADF&G operates or oversees, several test fishing projects within the drainage. Fish harvested during operation of these projects are provided to the local community to supplement their subsistence harvests. In to households for subsistence use . Residents of the communities of Alakanuk, Emmonak, Eagle, Kotlik, Manley, Pilot Station, and Scammon Bay were the primary recipients of these fish.
111375.3	unallocated	\$32.2	n/a	\$75.0	
Total		\$41.8		\$75.0

IV

11147722	Kodiak Salmon Test Fish	\$25.0	Assessment	\$40.0	Assessing early run strength of Karluk River sockeye, starts late May into early June
11147732	Chignik Salmon Test Fish	\$48.0	Assessment/Revenue	\$5.0	Conducted in Chignik Lagoon to determine sockeye buildup prior to first commercial. Offset costs of operating Chignik weir.
11147747	North Peninsula Salmon Test Fish	\$28.0	Assessment	\$20.0	Inseason run strength of Bear River sockeye, usually done in early August.
11147748	Shumagin Islands Salmon Test Fish	\$30.0	Assessment	\$35.0	In 2001, the Board of Fisheries adopted a regulation that defined immature salmon and required the department to conduct an immature salmon seine test fishery in July (5 AAC 09.366(i)). Fishery near Popof head and Red Bluff and management trigger is 100 immature fish per set.
11147752	Kodiak Herring Test Fish	\$30.0	Assessment/Revenue	-	Two main functions of test fisheries. First is to monitor roe quality. Second is to generate revenue to offset management costs.
11147784	Bering Sea/Aleutian Islands Crab Observer Training Test Fish	\$20.0	Revenue	-	Bering Sea crab test fishery is conducted to generate revenue to fund observer program development and training of staff. Test fishery harvest does not come off of the Total Allowable Catch.
11147785	Bristol Bay Red King Crab Test Fish	\$596.8	Assessment/Revenue	-	Bristol Bay crab test fishery is conducted to generate revenue to fund crab research. Test fishery harvest does not come off of the Total Allowable Catch.
11147789	Bering Sea/Aleutian Islands Crab Observer Deploy. Test Fish	\$686.6	Assessment/Revenue	-	Bering Sea crab test fishery is conducted to generate revenue to fund onboard observer program. Test fishery harvest does not come off of the Total Allowable Catch.
11147720	Adak/Petrel Bank test fish	\$200.0	Assessment/Revenue	-	Test fishery is conducted to generate revenue to fund red crab research. Test fishery harvest does not come off of the Total Allowable Catch.
11147787	Aleutian Islands golden king crab test fish	\$300.0	Assessment/Revenue	-	Aleutian Islands crab test fishery is conducted to generate revenue to fund onboard observer program. Test fishery harvest does not come off of the Total Allowable Catch.
Total		\$1,964.4		\$100.0	
Divisional Total		\$3,042.4		\$800.0
