FISCAL NOTE ANALYSIS

STATE OF ALASKA
2016 LEGISLATIVE SESSION**Analysis**

This bill requires a hospital to give a discharging patient the opportunity to name a caregiver to provide aftercare; a patient is not required to choose or name a caregiver, and the named caregiver is not obligated to provide aftercare. It requires a hospital to attempt to contact the named caregiver, notify the named caregiver of when the patient will be discharged, meet and instruct the named caregiver in aftercare tasks, and record this information in the patient's medical record. The hospital may contract out the duty to instruct the caregiver. The bill allows non-compliance with the provisions of the statute if compliance would delay discharge, and specifies that the provisions of the statute do not constitute a "right of action" against a hospital, its employees or contractors.

These provisions do not represent an additional cost to the Department.
