As a TVR (Tribal veteran representative) and a member of Post 26 American Legion and the newly formed VFW(Veterans of Foreign Wars). I have found out there is no social worker on Prince of Wales. We have veterans that getting older and in housing but needing legal and medical issues addressed.

So on the budget committee, please make note that we will try to formalize a better rapport with social services. I called VA and asked about social work they told me to call cornerstone. The response I got from them was disappointing. Everyone wants to be paid, but hard to get anyone to take on the responsibility.
