To my state representatives: I am Connor Benton, a student in multiple classes offered through Alaska's Learning Network (AKLN) including Alaska studies. Without this program, I would not be able to graduate because I am required to take certain classes that can not reasonably be offered in my school due to its size. I know that many of my fellow AKLN classmates are in the same situation. I strongly urge you to fund SB 139 and SB140 in support of AKLN.
