Good morning Dennis

I have some comments about the young lady from Wasilla who was recommending that maybe seniors move from Alaska as it was a hard place to live.

First off, I cannot even begin to tell you how upset I was to think that I grew up in Alaska, had a career in Alaska, finally retire and some representative from Wasilla thinks I should live somewhere else. Is she Sarah Palin or her best friend?

Like you, I have lived there all my life, no desire to depart. While I realize some cuts have to be made, can she even begin to believe having seniors move will be good for the economy?

I'm sorry for my negative comments but depend on you to help the seniors.
