Subject: Please do not cut services
Date: Monday, March 07, 2016 12:05:07 PM

Please do not cut services to the most vulnerable Alaskans. These proposed budget cuts are barbaric. Cutting services does not eliminate the need for these services. These cuts will only cost us more in more costly services later down the road, not to mention dignity and quality of life as well as lives themselves of care givers and patients/clients/family members.

It is time to raise revenue to invest in our families, children and communities. It's time Alaskans pay an income tax and don't expect a government and services for nothing.

Respectfully submitted.

2.5%, or half the \$450,000 cut considered by the
