Hello legislatures,

Please do not spend the earnings of the PFD. You should still reduce government spending than use the constitutional reserve for this year. Then have income tax or sales tax that more fair towards the lower income. Please have vote of the people with any change to how the PFD is distributed. We have many children that use there PFD towards education. As you know educational cost have only went up. Let's not take money away from children.

Thank you,  
Candace
