Subject: HB 216- Support

Representative Talerico,

I am writing you today to indicate my full support for HB 216, a Bill that will strengthen our right to access/navigate our state waters in any season.

As agencies, individuals and others have shown a desire to restrict access to our outdoor resources, it is important that this bill be passed to strengthen our access rights.

Historically, many Alaskans have used the spiderweb of flowing waters in our state for access. This was during the entire year, but especially in the winter.

Access to our navigable waterways in the summer and fall seasons can be problematic, due to the lack of public boat launches. This Bill would provide additional protections for access to our navigable waterways year round, for all lawful purposes.

Thank you for this opportunity to provide a Public Opinion Message on this House Bill.

Sincerely,
Reed Morisky

Good morning, Dave. Please include the Laundry House Gang in support of this bill. A good idea to be specific but also inclusive. Hearing schedule makes it a squeeze to testify as Wednesday is meeting day for and several of Sen. Sullivan's staff will be there. We will, if we can. I've had several discussions with John Sturgeon in the last week. Very optimistic that the Supreme Court will do the right thing for us. The struggle will be to get the Governor on board with kicking other slats out from under the federal steamroller. Have a great day. About four inches of new snow in West Ester this morning.
